Beijing Jingneng Clean Energy Co., Limited (hereinafter referred to as the “**Company**”) is a subsidiary controlled by BEH, and was listed on the Main Board of the Hong Kong Stock Exchange on 22 December 2011. The Company and its subsidiaries (collectively referred to as the “**Group**”) operate business in 26 provinces, municipalities and autonomous regions, such as Beijing, Inner Mongolia, Ningxia, Sichuan, Hunan and Guangdong, and are involved in wind power, photovoltaic power, gas-fired power and heat energy generation, small-to-medium-sized hydropower, energy storage and other clean energy generation businesses, which help the Group claim the title of the leading wind power and photovoltaic power operator in China and the largest gas-fired heat and power supplier in Beijing, as well as a key implementer of the initiative of “Let Zhangbei’s wind light up Beijing” (用張北的風，點亮北京的燈).

As of 31 December 2025, the total consolidated installed capacity of the Group reached 18,365 MW. The installed capacity of wind power generation of the Group reached 7,047 MW with the majority located in Inner Mongolia region, Shaan-Gan-Ning region and Beijing-Tianjin-Hebei region in China where wind resources are abundant. The installed capacity of photovoltaic power generation of the Group reached 5,837 MW, which is distributed in northwest China, north China and south China regions with relatively abundant solar resources. The Group operates eight gas-fired cogeneration plants with an installed capacity of 4,835 MW in Beijing and Hubei, with the annual power generation of the seven gas-fired cogeneration plants in Beijing accounting for over 47% of gas-fired power generation of Beijing and accounting for over 46% of the heat supply of Beijing’s central heating network, being the leading gas-fired heat and power supplier in Beijing. The Group also operates other clean energy business like small-to-medium-sized hydropower and energy storage, among which, our small-to-medium-sized hydropower has a consolidated installed capacity of 310 MW mainly distributed in southwest China with abundant water resources, and our energy storage has a consolidated installed capacity of 335 MW mainly distributed in Ningxia and Guangxi.

Always with a focus on economic efficiency and a goal of promoting high-quality development, the Company upholds its role as a state-owned enterprise in the capital and its primary responsibility and core business in clean energy. The Company adheres to the principles of “maintaining scale, promoting growth, optimizing structure, and ensuring profitability”, and takes green development as the first priority, technological innovation as the first driving force, and talent team as the utmost important resource, so as to promote sustainable development with higher quality and efficiency, and advance efforts in developing the Company into a more intelligent, carbon-efficient, flexible and resilient world-class clean energy service provider in the capital.

Chairman's Statement

Dear Shareholders,

2025 was a decisive year for the conclusion of the "14th Five-Year Plan". The management and all employees of the Group pooled their efforts with unwavering determination, shouldering the critical responsibility of ensuring energy supply as a state-owned enterprise in the capital, while also facilitating green transition with a pragmatic, reformative and innovative attitude. Amidst a complex market environment, we stabilized our core operations and achieved new breakthroughs in development. The Group reached new heights in scale, efficiency and brand value, living up to our shareholders' trust and expectations with impressive development results.

At present, China's energy industry is undergoing a stage of profound transformation in building a new energy system. Uncertainties in the external environment persist, and the degree of marketization in the electricity sector continues to rise. Factors such as electricity prices and power consumption present certain operational challenges. However, opportunities and challenges coexist, and the industry's long-term positive growth trend remains unchanged: China's "dual carbon" targets continue to progress, with an aim of achieving a total wind and photovoltaic power installed capacity of 3.6 billion kW by 2035, opening up vast potentials for growth in the clean energy sector. Beijing's efforts to transform itself into a global pacesetter in the green and digital economies, together with the continuously increasing demand

General Manager's Statement

Dear Shareholders,

2025 was the year of decisive victory for the Group to fully accomplish the goals of the “14th Five-Year Plan” and to achieve new heights across all management indicators. Faced with complex and changing

Management Discussion and Analysis

I. REVIEW OF THE ELECTRIC POWER INDUSTRY

In 2025, China's electric power industry thoroughly implemented the new energy security strategy of "Four Revolutions and One Cooperation" and closely aligned with the "dual carbon" goals to advance the construction of a new energy system. The scale of electricity consumption achieved a historic breakthrough, and non-fossil fuel power consumption exceeded the target of the "14th Five-Year Plan". With accelerated transition towards a new energy-dominated supply structure, coupled with continuously improved capabilities of market-oriented transactions and cross-regional resource allocation, China maintained a secure and reliable power system with continuous advancement in green and low-carbon transition in respect of electricity supply, demonstrating a steady and positive trend in electricity consumption, and achieving a supply-demand balance of electricity as a whole.

In terms of power supply and demand, in 2025, the national electricity consumption, for the first time, surpassed the 10 trillion kWh level, reaching 10.4 trillion kWh, representing a year-on-year increase of 5.0%. The power generation nationwide in total surpassed the 10 trillion kWh level, reaching 10.6 trillion kWh, representing a year-on-year increase of 4.8%. The national power generation from renewable energy reached 4.0 trillion kWh, representing a year-on-year increase of 15.0%. Among which, wind power generation reached 1.1 trillion kWh, representing a year-on-year increase of 13.1%; photovoltaic power generation reached 1.2 trillion kWh, representing a year-on-year increase of 39.8%; and hydropower generation reached 1.5 trillion kWh, representing a year-on-year increase of 2.5%.

In terms of power supply structure, new energy has become the core of the increment of electricity supply. As of the end of 2025, the national power generation installed capacity in total reached 3.89 billion kW, representing a year-on-year increase of 16.1%. The installed capacity of wind power generation reached 0.64 billion kW, representing a year-on-year increase of 22.9%; and the installed capacity of photovoltaic power generation reached 1.20 billion kW, representing a year-on-year increase of 35.4%. The proportion of the aggregate installed capacity of wind power and photovoltaic power generation to the total installed capacity was 47.3%, up by 5.3 percentage points as compared to the end of the previous year, and up by 23.1 percentage points as compared to the end of the "13th Five-Year Plan" period.

In terms of power generation operation, the utilisation hour of power generation equipment of power plants with a capacity of 6,000 kW or above nationwide was 3,119 hours, representing a year-on-year decrease of 312 hours. Sorted by categories, the utilisation hour of wind power generation equipment was 1,979 hours, representing a year-on-year decrease of 148 hours; the utilisation hour of photovoltaic power generation equipment was 1,088 hours, representing a year-on-year decrease of 113 hours; and the utilisation hour of gas-fired power generation equipment was 2,187 hours, representing a year-on-year decrease of 190 hours.

In terms of market mechanism, electricity transacted totalled 6.6 trillion kWh in the nationwide market, representing a year-on-year increase of 7.4%, accounting for 64.0% of the national electricity consumption, up by 1.3 percentage points as compared to the previous year. The national market-oriented transaction mechanism of electricity continuously improved as the scale of green electricity and green certificate transactions steadily expanded.

II. BUSINESS REVIEW FOR THE YEAR OF 2025

The year 2025 was the final year of the “14th Five-Year Plan” period. Faced with new developments in the industry and new challenges upon market competition, insisting on the vision of building a more intelligent, carbon-efficient, flexible and resilient world-class clean energy service provider in the capital, the Group focused on the three core businesses of wind power, photovoltaic power and gas-fired power and heat energy generation, while also firmly adhering to the “wind power and photovoltaic power integration strategy”. Given our strategically diversified layout on new business formats such as pumped storage, energy storage, offshore wind power and integrated energy services, the Group coordinated the enhancement of existing projects and the selection of high-quality new projects. While overcoming multiple challenges in the industry, the Group achieved new heights in terms of, among others, operating results, green development and digital and intelligent transformation, which laid a solid foundation for a good start to the “15th Five-Year Plan”. The Group’s overall competitiveness and industry influence continued to improve.

1. Achieved complete success in the finale of the “14th Five-Year Plan” period, with business scale and asset quality continuously improved

During the “14th Five-Year Plan” period, the Group achieved growth of operating results in terms of both quantity and quality. Historically outstanding results were seen across core indicators such as business, finance and dividend payouts. Our business scale and asset quality improved in tandem, and our ability to give back to shareholders continued to strengthen.

As compared to those as of the end of the “13th Five-Year Plan” period, as of the end of the “14th Five-Year Plan” period, the Group’s installed capacity increased by 7.504 million kW, representing a period-on-period increase of 107%; the Group’s power generation increased by 12.57 billion kWh, representing a period-on-period increase of 216.5%; the Group’s total assets increased by RMB34.04 billion, representing a period-on-period increase of 41.0%; the Group’s operating income increased by RMB3.87 billion, representing a period-on-period increase of 45.8%; the Group’s profit before taxation increased by RMB0.82 billion, representing a period-on-period increase of 108.8%; and the Group’s cash dividend increased by RMB0.92 billion, representing a period-on-period increase of 835.8%.

Since the start of the “14th Five-Year Plan”, the Group has placed greater emphasis on sharing operating results with shareholders, resulting in a year-on-year increase in shareholders’ returns. The proposed cash dividend for 2025 was RMB0.18 per share, being 2.6 times that of the end of the “13th Five-Year Plan” period, far exceeding the growth rate of earnings per share during the same period. Meanwhile, the Group’s total cash dividend since its listing amounted to approximately RMB9.44 billion, exceeding the Group’s total equity financing from the capital market by approximately RMB2.94 billion, and this gap is also continuously widening.

Management Discussion and Analysis

The Group focused on digital and intelligent transformation and continued to increase

Management Discussion and Analysis

3. Achieved steady increase in installed capacity, with heat supply capacity further improved

The Group's installed capacity steadily increased, further strengthening our energy supply capabilities. As of 31 December 2025, the Group's total installed capacity reached 18.365 million kW, with 0.928 million kW added during the year. Among which, the installed capacity of the wind power generation segment was 7.047 million kW, with 0.190 million kW added during the year; the installed capacity of the photovoltaic power generation segment was 5.837 million kW, with 0.569 million kW added during the year; the installed capacity of the gas-fired power and heat energy generation segment was 4.835 million kW, with 0.060 million kW added during the year; and the installed capacity of independent shared energy storage was 0.335 million kW, with 0.109 million kW added during the year. The supporting capacity for energy storage further improved, facilitating a more robust framework for the coordinated development of various types of power sources.

Meanwhile, the Group's capacity to ensure a stable heat supply has improved, with the coverage of heat supply continuing to expand. Significant progress has been made in enhancing the quality and expanding the capacity of clean heat supply. In 2025, the Group supplied 27.180 million GJ of heat, successfully fulfilling the capital's winter heat supply and energy guarantee requirements for major events. The heat supply coverage of the gas-fired power and heat energy generation segment was expanded by 2.57 million sq.m., with the Group's contribution to the capital's central heating network reaching 46.0%, representing a year-on-year increase of more than 2 percentage points and a new historical high. Concurrently, the Group facilitated the transformation of gas-fired power plants in Beijing into integrated energy providers. Our waste heat utilisation and integrated energy demonstration project in Beijing progressed in an orderly manner, resulting in improvements in both clean heat supply and integrated energy service capabilities.

4. Made continuous breakthroughs in our Beijing projects and “Green Power to Beijing” project, with new and traditional business formats advancing in tandem

Leveraging the favourable electricity tariffs and efficient power absorption in the Beijing area, the Group has firmly established its core mission of serving the capital's development. We prioritised the deployment of energy projects in Beijing and continued to step up efforts in developing renewable energy projects in Beijing. We completed the filing of a 0.436 million kW photovoltaic project—currently the largest centralised photovoltaic project in Beijing. Meanwhile, in response to the capital's demand for green and low-carbon development, the Group coordinated clean energy resources in the surrounding areas, systematically advanced the phased construction of the “Green Power to Beijing” project, sought government support, and facilitated the implementation of projects. Phased progress has been made in green power from Chengde, Zhangjiakou and other regions to Beijing, further reinforcing the foundation for securing the capital's clean energy supply.

Management Discussion and Analysis

The Group is committed to traditional renewable energy business formats as the foundation of its development, continuously deepening its core strategy of wind power and photovoltaic power integration, and constantly consolidating the competitive advantages and industry competitiveness of traditional business formats, thereby building a solid foundation for robust business development. Meanwhile, keeping pace with industry development trends and the requirements of the “dual carbon” goals, the Group actively expanded into new business formats, steadily advancing its deployment and collaboration in areas such as pumped storage, offshore wind power and integrated energy services. Currently, the Mentougou and Kuancheng pumped storage projects and the Shantou and Qinhuangdao offshore wind power projects have secured key preliminary approval documents. This has enabled new and traditional business formats to complement and advance together, fostering synergistic development and cultivating new growth momentum for high-quality and sustainable development.

5. Generated positive free cash flow, with further increase in dividend payouts

The Group continuously optimised capital management, intensified efforts in capital recovery, and rationally managed capital expenditure and investment pace. As such, our free cash flow turned from negative to positive, and our cash flow quality and sustainable development capabilities steadily improved. In 2025, the Group recovered approximately RMB4.404 billion in renewable energy power generation subsidies, being 2.96 times that of 2024, thereby providing a solid capital guarantee for the Group’s production and operation, project investment and shareholders’ dividend.

The Group has placed great importance on rewarding shareholders, and has prepared and released the “Future Three-Year (2025–2027) Shareholder Dividend Return Plan”, which has established a reasonable dividend payout ratio to stabilise investor expectations. In light of the Group’s relatively ample cash flow in 2025, and to celebrate the Company’s 15th anniversary of its listing as well as the launch of “Qingrui (擎睿)”, the industry’s first AI large model for gas turbines, the Group has proposed a cash dividend for 2025 of RMB0.18 per share, which exceeds the amount corresponding to the ratio specified in the aforementioned dividend plan by approximately RMB0.042 per share and is higher than the cash dividend for 2024 of RMB0.037 per share, thereby continuing to share the Group’s operating results with shareholders.

Management Discussion and Analysis

6. Strengthened safety management and compliant operation, with continuous optimisation of operational management efficiency

The Group has strictly adhered to the bottom line of safe development by balancing development with safety, continuously improving its production safety management system, and advancing grid-based and checklist-driven management of production safety. We routinely conducted full-process safety inspection and hazard identification and rectification, while strengthening on-site supervision of high-risk operations and safety management of contracted personnel. We have reinforced our contingency management system, refined our contingency plans for various scenarios, and conducted practical drills to effectively enhance our ability to respond to all types of contingencies, resulting in a steady improvement in our inherent safety standards. We have established a comprehensive and multi-dimensional risk prevention and control system, strengthened compliance oversight throughout the entire project lifecycle, and strictly implemented the “Five Standardisations” requirements for safety, quality, schedule, cost, and compliance. We have optimised the tendering and procurement system, established the “sunshine procurement” mechanism, and standardised the management of the entire tendering and procurement process, thereby effectively mitigating integrity and operational risks, and continuously enhancing our capabilities for compliant operation and risk resilience.

The Group continued to advance the refinement and upgrading of operational management, striving to implement measures to reduce costs, improve quality and enhance efficiency. Leveraging the construction of a smart regulatory system and the empowerment of digital and intelligent transformation, repetitive on-site tasks at our wind power and photovoltaic power plants reduced by 71%, resulting in significant improvements in production, operation and management efficiency. Our capital management efficiency continued to improve, with the overall financing cost for the year accounting for approximately 2.31%, representing a decrease of 0.36 percentage point from 2.67% in 2024. We continued to deepen cost management by revising and releasing relevant cost management regulations for wind power and photovoltaic power projects, and clarifying investment control ranges and performance evaluation requirements, with the construction and commissioning costs of projects for the year both reaching industry-leading standards.

Management Discussion and Analysis

7. Optimised listed company operations, with continuous advancement of market capitalisation management

The Group has strictly complied with the information disclosure rules of the Hong Kong Stock Exchange, upholding the principles of timely, accurate and complete information disclosure to ensure information transparency in the capital market. Through means such as regular results releases, investor roadshows and ESG report disclosures, the Group has strengthened communication with the capital market and investors, and accurately conveyed its business development strategies and operating results.

Meanwhile, the Group proactively assessed the conditions for inclusion in the “Hong Kong Stock Connect” and steadily advanced efforts to increase its market capitalisation. Coupled with its actual business development, the Group proactively released its dividend plan and continuously optimised the shareholders’ return mechanism, striving to build a virtuous cycle of “value consolidation – valuation repair – shareholders’ returns”.

III. BUSINESS OUTLOOK FOR 2026

2026 marks the start of the “15th Five-Year Plan” and represents a critical phase for fostering the Group’s high-quality reform and development. Building on its role as a state-owned enterprise in the capital and its core responsibility and business in clean energy, the Group will refine and establish the target framework for the “15th Five-Year Plan” by adhering to the principles of “maintaining scale, boosting growth, optimising structure, and stabilising profitability”. With “serving the capital, green upgrades, digital and intelligent empowerment, and lean management” as the main themes of our work, we will place greater emphasis on balancing existing and new projects, linking preliminary stages with production, integrating digital and intelligent technologies with operation, combining industry with finance, and foreseeing competition and crisis. We will accelerate the formation of strategic advantages through differentiated development to ensure a strong start to the “15th Five-Year Plan”.

1. Focus on reinforcing our foundation and strengthening our core capabilities to improve the quality and efficiency of existing projects

The Group’s gas-fired power and heat energy generation segment will focus on ensuring the safe, stable and efficient operation of generators, fully tap the potential for cost reduction, make every effort to expand in the heat supply market, accelerate the flexibility upgrades for generators, speed up the transition to a regional integrated energy centre, explore diverse service scenarios, and prepare for participation in electricity market transactions. The wind power and photovoltaic power generation segment will solidly facilitate the refined operation and equipment lifecycle management of power plants, continuously improve the operational stability of generators, reduce downtime due to failures, intensify marketing efforts in the electricity market, maximise gains from electricity transactions, and continue to handle the applications, audits and settlements of renewable energy subsidies to accelerate capital recovery.

Management Discussion and Analysis

The Group will coordinate green power resources across each region, continuously enhance its capabilities in the allocation and coordination of green power generation, and improve the capacity to absorb and ensure a stable supply of green power to Beijing. We will facilitate the development of market-oriented business strategies, accelerate the establishment of an electricity marketing system, cultivate a professional team of electricity marketing personnel, establish an auxiliary decision-making system for electricity transactions, expand “medium-to long-term + spot + green power” combination trading, continuously optimise our trading strategies, actively expand our trading channels, comprehensively enhance our trading capabilities, and strive to respond to the fierce competitive landscape of market-based electricity transactions.

2. Focus on bringing green power to Beijing to optimise the layout of new projects

Management Discussion and Analysis

5. Focus on risk prevention and control to strictly adhere to the bottom line of production safety

The Group will strictly enforce the primary responsibility for production safety, improve the comprehensive management system for production safety, successfully conclude the three-year campaign to address the root causes of production safety issues with high-quality results, and drive continuous improvement in safety governance capabilities through closed-loop management. We will establish a dual-prevention mechanism combining risk classification and control with hazard identification and rectification, utilise digital safety management tools to strengthen safety supervision throughout the entire process, standardise the management of outsourced and special operations, and thoroughly carry out special fire safety rectification campaigns to ensure the safety of personnel and equipment from the source. We will adhere to the principle of integrating routine and contingency preparedness with rapid response, refine various specialised contingency response plans, and conduct practical drills. We will strengthen end-to-end management of environmental protection and carbon emissions, ensure contingency support for major events and periods of severe air pollution, and continuously reinforce the foundation for safe development.

The Group will comprehensively establish an end-to-end risk prevention and control system to effectively enhance operational risk management. We will strictly manage project investment approvals, strengthen risk management throughout the entire construction process, and facilitate smart engineering supervision, striving to mitigate investment and construction risks. We will standardise tendering and procurement management, and reinforce centralised procurement and process oversight to ensure compliant and orderly business operations. Leveraging a sound capital management system, we will optimise financing structure and capital allocation while strictly safeguarding capital security. We will deepen the integrated management of legal compliance and internal control, intensify compliance reviews for major decisions and major contracts, and advance penetrative oversight of internal control along with a closed-loop system for issue rectification. These will comprehensively prevent and mitigate various risks, including those related to operational management, capital security and legal compliance, thereby providing a solid and secure foundation for the Group's high-quality and sustainable development.

Management Discussion and Analysis

6. Focus on industry-finance integration to continuously facilitate market capitalisation management

The Group will deepen industry-finance integration. Based on the development needs of our core clean energy business, we will fully leverage national green finance policies and various business support policies to precisely align with diversified green finance channels such as green credits and green bonds. We will strive to secure low-cost funding, continuously optimise our financing structure, and reduce our financing costs. These will provide a solid financial foundation for enhancing the quality of our existing projects and the planning of our new projects, thereby facilitating a deep integration of financial services and industrial development that empowers both sides.

The Group will continuously deepen its market capitalisation management. Guided by the goal of enhancing corporate core value, we will refine our investor relations management system, improve the quality of information disclosure, and strengthen targeted communication with various investors in the capital market to fully convey the Group's development strategies and operating results. We will further enhance the Company's liquidity in the capital market and strive for inclusion in the Hang Seng Composite Index and the Hong Kong Stock Connect trading channels as soon as practicable. We will continue to share the results of our business development with shareholders, strive to continuously improve shareholders' investment returns, and work to drive the synergistic growth of corporate value, operational efficiency and shareholders' returns, thereby achieving a virtuous cycle among industry, finance and capital.

IV. OPERATING RESULTS AND ANALYSIS

1. Overview

In 2025, the Company's profit for the year amounted to RMB3,086.8 million, representing a decrease of 9.77% as compared with RMB3,420.9 million for 2024. Profit attributable to the equity shareholders amounted to RMB2,947.6 million, representing a decrease of 9.16% as compared with RMB3,245.0 million for 2024.

2. Operating Income

The total operating income increased by 1.53% from RMB20,561.7 million for 2024 to RMB20,877.0 million for 2025, due to the increase in revenue from sales of electricity as a result of the increase in installed capacity of the gas-fired power and heat energy generation segment and the wind power generation segment.

Management Discussion and Analysis

Gas-fired Power and Heat Energy Generation Segment

The operating income from the gas-fired power and heat energy generation segment increased by 1.38% from RMB12,410.3 million for 2024 to RMB12,581.4 million for 2025, of which, revenue from sales of electricity increased by 1.64% from RMB10,252.8 million for 2024 to RMB10,420.9 million for 2025, due to the increase in sales volume of electricity as a result of the new installed capacity put into operation of this segment. Revenue from sales of heat energy increased by 0.14% from RMB2,157.5 million for 2024 to RMB2,160.5 million for 2025.

Wind Power Segment

The operating income from the wind power segment increased by 7.85% from RMB4,709.3 million for 2024 to RMB5,079.2 million for 2025, due to the increase in sales volume of electricity as a result of the increase in grid-connected installed capacity of this segment.

Photovoltaic Power Segment

The operating income from the photovoltaic power segment decreased by 3.18% from RMB3,086.4 million for 2024 to RMB2,988.4 million for 2025, due to the decrease in average electricity price of this segment.

Hydropower Segment

The operating income from the hydropower segment decreased by 35.80% from RMB294.1 million for 2024 to RMB188.8 million for 2025, due to the decrease in sales volume of electricity in 2025 as a result of the shutdown of some power plants in 2024.

Other Segment

Other operating income principally comprises revenue from finance lease business and equipment repairs and maintenance. Other operating income decreased by 36.36% from RMB61.6 million for 2024 to RMB39.2 million for 2025, due to the decrease in revenue from finance lease.

Management Discussion and Analysis

4. Operating Expenses

Operating expenses increased by 3.72% from RMB15,809.7 million for 2024 to RMB16,397.8 million for 2025, due to the increase in gas consumption and other expenses, and the decrease in other gains.

Gas Consumption

Gas consumption increased by 1.64% from RMB9,225.6 million for 2024 to RMB9,377.0 million for 2025, due to the increase in gas consumption as a result of the increase in sales volume of electricity of the gas-fired power and heat energy generation segment.

Depreciation and Amortization

Depreciation and amortization increased by 0.88% from RMB3,739.7 million for 2024 to RMB3,772.6 million for 2025, due to the commencement of production of new projects.

Personnel Cost

Personnel cost increased by 4.68% from RMB1,499.7 million for 2024 to RMB1,569.9 million for 2025, due to the increase in personnel as a result of the Group's business development, and the commencement of production of new projects.

Repairs and Maintenance

Repairs and maintenance increased by 19.33% from RMB305.3 million for 2024 to RMB364.3 million for 2025, due to the major overhauls of certain units of the gas-fired power and heat energy generation segment during the year.

Other Expenses

Other expenses principally comprise (1) external purchase of power, water and materials, etc.; (2) property management, greening and fire protection fees; (3) rental expenses; (4) underwriting fees and bank commissions; (5) intermediary service fees; (6) property insurance premium; and (7) other miscellaneous operating expenses.

Other expenses increased by 9.00% from RMB1,159.5 million for 2024 to RMB1,263.9 million for 2025, due to the commencement of production of new projects.

Other Gains and Losses

Other gains decreased from RMB130.1 million for 2024 to RMB30.8 million for 2025, due to the significant year-on-year decrease in gains from changes in fair value of the shares of CGN Power Co., Ltd. ("CGN") held by the Group.

Management Discussion and Analysis

5. Operating Profit

As a result of the above, operating profit decreased by 8.21% from RMB5,261.1 million for 2024 to RMB4,829.1 million for 2025.

Wind Power Segment

The operating profit of the wind power segment decreased by 4.49% from RMB2,786.1 million for 2024 to RMB2,661.0 million for 2025, due to the decline in the average electricity price of the existing projects of this segment, the expiration of the long-term electricity sales agreement of the New Gullen Wind Power project in Australia, and the cancellation of the 50% VAT refund upon collection policy for onshore wind power projects.

Photovoltaic Power Segment

The operating profit of the photovoltaic power segment decreased by 0.08% from RMB1,610.8 million for 2024 to RMB1,609.5 million for 2025, remaining basically unchanged over the two-year period.

Gas-fired Power and Heat Energy Generation Segment

The operating profit of the gas-fired power and heat energy generation segment decreased by 12.61% from RMB1,312.8 million for 2024 to RMB1,147.3 million for 2025, due to the decrease in electricity generation from existing projects, the increase in repair costs, and the credit impairment losses of this segment.

Hydropower Segment

The operating profit of the hydropower segment decreased from RMB96.5 million for 2024 to RMB16.1 million for 2025, due to the shutdown of some power plants of this segment in 2024.

Other Segment

The losses recorded by other segment increased by 10.95% from RMB545.1 million for 2024 to RMB604.8 million for 2025, due to the year-on-year decrease in gains from fair value changes on price of the shares of CGN held by the Company, and the reduction in finance lease business.

6. Finance Costs

Finance costs increased by 8.39% from RMB1,152.7 million for 2024 to RMB1,249.4 million for 2025, due to the commencement of production of new projects. Average finance costs for the year decreased by 0.36 percentage point from 2.67% for 2024 to 2.31% for 2025.

Management Discussion and Analysis

7. Share of Results of Associates and a Joint Venture

Share of results of associates and a joint venture increased by 32.18% from RMB106.9 million for 2024 to RMB141.3 million for 2025, due to the increase in the share of operating results of Beijing Huayuan Huizhong Environmental Protection Technology Co., Ltd., a joint venture.

8. Profit before Taxation

As a result of the foregoing, profit before taxation decreased by 12.06% from RMB4,279.8 million for 2024 to RMB3,763.6 million for 2025.

9. Income Tax Expense

Income tax expense decreased by 21.20% from RMB858.9 million for 2024 to RMB676.8 million for 2025. Effective income tax rate was 17.98% for 2025.

10. Profit for the Year

As a result of the foregoing, profit for the year decreased by 9.77% from RMB3,420.9 million for 2024 to RMB3,086.8 million for 2025.

11. Profit for the Year Attributable to Equity Shareholders of the Company

Management Discussion and Analysis

7. Foreign Exchange and Exchange Rate Risks

The businesses of the Group are mainly located in Mainland China, where most of its income and expenses are denominated in RMB. The Group has a small portion of overseas investments and loans in foreign currencies (including certain deposits denominated in Australian dollars, HK dollars and US dollars, as well as borrowings in HK dollars). Changes in RMB exchange rates may cause exchange losses or gains to the Group's foreign currency-denominated business.

The Group will continue to monitor exchange rates so as to cope with changes in the foreign exchange market and enhance the risk management on exchange rates through various management measures. Details on the exchange rate risks to which the Group was exposed were set out in note 48 to the Financial Statements. The Group did not commit itself in any exchange rate hedges during the Reporting Period.

VII. RISK FACTORS AND RISK MANAGEMENT

Macro-environmental Risk

Amid sluggish global economic growth, intensified international economic and trade frictions, and more pressure on downward domestic economy, the Group's business development suffered significant impact. A tendency of clean, low-carbon, electrified, and digital development has emerged in the supply and demand structure of energy. Whether the Group can grasp the structural reforms on the power supply side, fully mobilize demand-side response resources, and promote the development trend of green transformation and upgrading of the power industry are also related to the future development of the Group.

Changes in the macro environment present challenges but more opportunities for the development of the Group. In order to accommodate the changes in the macro environment by closely monitoring fluctuations in economic situation and development situation of new energy, the Group turns crises into opportunities by vigorously developing new energy business, making efforts in power marketing, exploring the pumped storage, energy storage and offshore wind power business.

Policy and Regulatory Risks

The Group primarily invests in and operates clean energy generation projects, which are encouraged by the country. The implement of the renewable energy quota policy brings out the benefits of the policy for further mitigating the power consumption problem of renewable energy; with the drop in power price of new energy resulting from the promotion of market-oriented reform of electric power, the decrease or cancellation of policy subsidies, and the increasing volume of electric power traded, the operation and development of new energy industry faced serious challenges.

The Group actively follows up and properly keeps abreast of policy changes, puts more effort into research related to policy and technology, actively collects and studies policy information related to clean energy, pays close attention to the development and application of related new technologies, and actively carries out work in terms of technology reserves to prevent and resolve policy risk.

Human Resources

The Group upholds the management philosophy of “being people-oriented and pursuing excellence”, strives to create a harmonious working environment, and strengthens efforts in building of talents team. While focusing on business development, it attaches importance to staff training and employees’ benefits. The overall human resources condition of the Company in 2025 is summarized as follows:

I. SUMMARY OF HUMAN RESOURCES

The Company had a total of 3,260 employees as at 31 December 2025. Over 56	129	3.95%	100.00%
Total	3,260	100.00%	–

2. Educational Structure:

Educational background	Number of employees	Percentage	Cumulative percentage
Doctorate degree	5	0.15%	0.15%
Master’s degree	250	7.67%	7.82%
Bachelor’s degree	2,384	73.13%	80.95%
College or below	621	19.05%	100.00%
Total	3,260	100.00%	–

II. EMPLOYEES' INCENTIVES

With an aim to cope with its development, the Company, on the basis of position-oriented targets accountability system, has further established a performance appraisal system for all employees and a multi-level and medium-to-long term incentive mechanism. Through clearly defining position-oriented performance targets, the Company is able to assess and appraise employees' performance in an objective manner. By materializing reward and penalty in the performance-based portion of the employees' remuneration based on appraisal results, the Company is able to fully boost the potential and the morale of employees, thus achieving the coexistence of incentives and restraints. In addition, at the extraordinary general meeting held on 2 February 2024, the shareholders of the Company considered and approved the adoption of the H Share Appreciation Rights Scheme and the grants thereunder, details of which are set out in "Report of the Directors – H Share Appreciation Rights Scheme".

III. EMPLOYEES' REMUNERATION

The Company continues to improve the measures on payroll management, so as to achieve closed-loop full-process management covering budget, execution, adjustment and settlement. The Company has implemented a linkage mechanism between wage and performance for various types of enterprises, whereby corporate efficiency varies with the salary and wage in the same direction. For details of the Group's personnel costs for 2025, please refer to note 12 to the Financial Statements.

IV. EMPLOYEES' TRAINING

Upholding the core value of "being people-oriented and pursuing excellence" and the talent philosophy of "nurturing everyone into a talent by unleashing their utmost potential", the Company makes it a priority to cultivate a high-quality workforce, with an aim to enhance the core competitive strength of the Company. The Company adhered to the goal of "cultivating and building a well-structured workforce with sufficient number of high-quality and innovative talents", so as to ensure a stable talent supply for the high-quality development of the Company.

Insisting on the development philosophy of "fostering an enterprise with strong talent base" and focusing on the goal of building "three teams" featured with clean energy characteristics, the Company provides tailor-made training with content-rich and diversified courses by employing the "3+3+X" training mode and training need matrix based on the age structure of "old, middle and young talent" and position nature of "management, technique, skill, party affairs and new employees", recording an attendance rate of 100% of the staff.

V. EMPLOYEES' BENEFITS

The Company has made contributions to the social insurance and housing fund for its employees in strict compliance with the Labor Law, Labor Contract Law and Social Insurance Law. Meanwhile, the Group has also formulated related systems such as the Management Standards for Social Insurance and Housing Fund, Management Standards for Supplementary Healthcare, Management Standards for Occupational Health, Management Standards for Labor Welfare and Management Standards for General Labor Protective Equipment to enrich the Company's employee welfare offerings and enhance employees' sense of belonging and happiness.

The Company and BEH and its associates entered into several framework agreements in respect of the continuing connected transactions between them, so as to regulate the continuing connected transactions carried out between the parties. Details of such connected transactions are set out below:

Report of the Directors

Framework Equipment Maintenance Agreement between BEH and the Company

The Company and BEH entered into the Framework Equipment Maintenance Agreement on 25 October 2016. The term of such agreement is three years commencing from 1 January 2017 and ending on 31 December 2019. Due to the expiration of such agreement on 31 December 2019 and the Company's continuous demand for equipment maintenance service, the Company entered into the new Framework Equipment Maintenance Agreement with BEH on 16 October 2019. The term of such new agreement is three years commencing from 1 January 2020 and ending on 31 December 2022. As the Framework Equipment Maintenance Agreement entered into on 16 October 2019 expired on 31 December 2022 and due to the continuous demand for equipment maintenance services of the Company, on 8 November 2022, the Company and BEH entered into a new Framework Equipment Maintenance Agreement. The term of such new agreement is three years commencing from 1 January 2023 and ending on 31 December 2025. As the Framework Equipment Maintenance Agreement entered into on 8 November 2022 expired on 31 December 2025 and due to the continuous demand for equipment maintenance services of the Company, the Company entered into the new Framework Equipment Maintenance Agreement with BEH on 12 November 2025. The term of such new agreement is three years commencing from 1 January 2026 and ending on 31 December 2028. The Company estimates that the annual caps for the Framework Equipment Maintenance Agreement for each of the three years ending 31 December 2028 will all be RMB200 million. The transactions and annual caps under the Framework Equipment Maintenance Agreement have been approved by the Board on 12 November 2025.

Framework Service Agreement between BEH and the Company

The Company and BEH entered into the Framework Service Agreement on 25 October 2016. The term of such agreement is three years commencing from 1 January 2017 and ending on 31 December 2019. Due to the expiration of such agreement on 31 December 2019 and the Company's continuous demand for (i) property management services, including cleaning, security and catering services, and (ii) administration services, the Company entered into the new Framework Service Agreement with BEH on 16 October 2019. The term of such new agreement is three years commencing from 1 January 2020 and ending on 31 December 2022. As the Framework Service Agreement entered into on 16 October 2019 expired on 31 December 2022 and due to the Company's continuous demand for property management services and administration services, on 8 November 2022, the Company and BEH entered into the new Framework Service Agreement. The term of such new agreement is three years commencing from 1 January 2023 and ending on 31 December 2025. Taking into account the Company's current business operation needs of property management services and administration services, the Company expects the original annual caps under the Framework Service Agreement to be insufficient. On 5 September 2024, the Board resolved to adjust the original annual caps for such continuing connected transactions under the Framework Service Agreement for each of the two years ending 31 December 2025 from RMB90 million and RMB95 million to RMB120 million and RMB130 million, respectively, for property management services, and from RMB90 million and RMB95 million to RMB160 million for both year for administration services. As the Framework Service Agreement entered into on 8 November 2022 expired on 31 December 2025 and due to the Company's continuous demand, on 12 November 2025, the Company and BEH entered into the new Framework Service Agreement. The term of such new agreement is three years commencing from 1 January 2026 and ending on 31 December 2028. The Company estimates that, for each of the three years ending 31 December 2028, the annual caps for property management services will be RMB210 million, RMB220 million and RMB230 million, respectively; the annual caps for administration services will all be RMB160 million; and the annual caps for operation and maintenance services will be RMB240 million, RMB250 million and RMB260 million, respectively. The transactions and annual caps under the Framework Service Agreement have been approved by the Board on 12 November 2025.

EPC Framework Agreement between BEH and the Company

The Company and BEH entered into the EPC Framework Agreement on 25 October 2016. The term of such agreement is three years commencing from 1 January 2017 and ending on 31 December 2019. Due to the expiration of such agreement on 31 December 2019 and the Company's continuous demand for energy performance contracting services, the Company entered into the new EPC Framework Agreement with BEH on 16 October 2019. The term of such new agreement is three years commencing from 1 January 2020 and ending on 31 December 2022. As the EPC Framework Agreement entered into on 16 October 2019 expired on 31 December 2022 and due to the Company's continuous demand for energy performance contracting services, on 8 November 2022, the Company and BEH entered into the new EPC Framework Agreement. The term of such new agreement is three years commencing from 1 January 2023 and ending on 31 December 2025. As the EPC Framework Agreement entered into on 8 November 2022 expired on 31 December 2025 and due to the Company's continuous demand for energy performance contracting services, on 12 November 2025, the Company and BEH entered into the new EPC Framework Agreement. The term of such new agreement is three years commencing from 1 January 2026 and ending on 31 December 2028. The Company estimates that the annual caps for the EPC Framework Agreement for each of the three years ending 31 December 2028 will all be RMB26.5 million. The transactions and annual caps under the EPC Framework Agreement have been approved by the Board on 12 November 2025.

Framework Heat Sale and Purchase Agreement between BEH and the Company

The Company and BDHG entered into the Framework Heat Sale Agreement on 25 October 2016. The term of such agreement is three years commencing from 1 January 2017 and ending on 31 December 2019. Due to BEH and its associates' continuous demand for purchasing heat generated by the Group, the Company and BEH (instead of BDHG) entered into the new Framework Heat Sale Agreement on 16 October 2019. The term of such new agreement is three years commencing from 1 January 2020 and ending on 31 December 2022. As the Framework Heat Sale Agreement entered into on 16 October 2019 expired on 31 December 2022 and due to BEH and its associates' continuous demand for purchasing heat generated by the Group, on 8 November 2022, the Company and BEH entered into a new Framework Heat Sale and Purchase Agreement. The term of such new agreement is three years commencing from 1 January 2023 and ending on 31 December 2025. As the Framework Heat Sale and Purchase Agreement entered into on 8 November 2022 expired on 31 December 2025 and due to BEH and its associates' continuous demand for purchasing heat generated by the Group, on 12 November 2025, the Company and BEH entered into the new Framework Heat Sale and Purchase Agreement. The term of such new agreement is three years commencing from 1 January 2026 and ending on 31 December 2028. The Company estimates that the annual caps for the Framework Heat Sale and Purchase Agreement for each of the three years ending 31 December 2028 will all be RMB2,351.8 million. The transactions and annual caps under the new Framework Heat Sale and Purchase Agreement have been approved at the third extraordinary general meeting of 2025 of the Company on 23 December 2025.

Report of the Directors

Equipment Purchase Framework Agreement between BEH and the Company

The Company and BEH entered into the Equipment Purchase Framework Agreement on 25 October 2016. The term of such agreement is three years commencing from 1 January 2017 and ending on 31 December 2019. Due to the expiration of such agreement on 31 December 2019 and the Company's increasing demand for purchasing more equipment, the Company entered into the new Equipment Purchase Framework Agreement with BEH on 16 October 2019. The term of such new agreement is three years commencing from 1 January 2020 and ending on 31 December 2022. As the Equipment Purchase Framework Agreement entered into on 16 October 2019 expired on 31 December 2022 and due to the Company's continuous demand for purchasing equipment, on 8 November 2022, the Company and BEH entered into the new Equipment Purchase Framework Agreement. The term of such new agreement is three years commencing from 1 January 2023 and ending on 31 December 2025. The transactions and annual caps under the Equipment Purchase Framework Agreement have been approved by the Board on 8 November 2022.

No amount was incurred for this transaction in 2025 due to the change in procurement model of the Group.

Finance Leasing Framework Agreement (I) between the Company and Beijing Jingneng Leasing

To expand its financing channels, the Company entered into the Finance Lease Framework Agreement with Beijing Jingneng Leasing on 25 October 2016. The term of such agreement is three years commencing from 1 January 2017 and ending on 31 December 2019. To avoid large amount of capital expenditure for the purchase of the large machinery equipment, the Company entered into the new Finance Lease Framework Agreement with BEH (instead of Beijing Jingneng Leasing) on 16 October 2019. The term of such new agreement is three years commencing from 1 January 2020 and ending on 31 December 2022. Considering the business needs of the Company for the direct leasing services under the Finance Lease Framework Agreement, the Company entered into a supplemental finance lease business framework agreement with BEH on 28 September 2021 to revise the original caps under the Finance Lease Framework Agreement of RMB450 million per year to RMB2,000 million for the year ending 31 December 2021 and RMB3,000 million for the year ending 31 December 2022. The supplemental agreement and the revised caps have been approved by the Shareholders on 22 December 2021. As the Finance Lease Framework Agreement entered into between the Company and BEH expired on 31 December 2022, on 8 November 2022, the Company and Beijing Jingneng Leasing (instead of BEH) entered into a new finance leasing framework agreement (the "**Finance Leasing Framework Agreement (I)**"). The term of such new agreement is three years commencing from 1 January 2023 and ending on 31 December 2025. The transactions and annual caps under the Finance Leasing Framework Agreement (I) have been approved at the fourth extraordinary general meeting of 2022 of the Company on 29 December 2022. As the Finance Leasing Framework Agreement (I) entered into on 8 November 2022 expired on 31 December 2025 and due to the Company's continuous demand, on 12 November 2025, the Company and Beijing Jingneng Leasing entered into the new Finance Leasing Framework Agreement (I). The term of such new agreement is three years commencing from 1 January 2026 and ending on 31 December 2028. The Company estimates that the annual caps for the Finance Leasing Framework Agreement (I) for each of the three years ending 31 December 2028 will all be RMB1,000 million. The transactions and annual caps under the Finance Leasing Framework Agreement (I) have been approved at the third extraordinary general meeting of 2025 of the Company on 23 December 2025.

Financial Services Framework Agreement between BEH Finance and the Company

The Company and BEH Finance entered into the Financial Services Framework Agreement on 25 October 2016. The term of such agreement is three years commencing from 1 January 2017 and ending on 31 December 2019. Due to the expiration of such agreement on 31 December 2019 and the Company's increasing demand for financial services (deposit services, loan services and other financial services), the Company entered into the new Financial Services Framework Agreement with BEH Finance on 16 October 2019. The term of such new agreement is three years commencing from 1 January 2020 and ending on 31 December 2022. Considering the needs of the Company and the fact that Shenzhen Jingneng Leasing has become a subsidiary of the Company, the original annual cap might not be sufficient. On 27 July 2022, the Company entered into a supplemental agreement with BEH Finance to revise the annual cap for the deposit services for the year ending 31 December 2022 from RMB5,000 million to RMB6,500 million. The supplemental agreement and the revised cap have been approved at the third extraordinary general meeting of 2022 on 6 September 2022. As the Financial Services Framework Agreement entered into on 16 October 2019 and its supplemental agreement entered into on 27 July 2022 expired on 31 December 2022 and due to the increasing demand of the Company for financial services, the Company entered into a new Financial Services Framework Agreement with BEH Finance on 8 November 2022. The term of such new agreement is three years commencing from 1 January 2023 and ending on 31 December 2025. As the Financial Services Framework Agreement entered into on 8 November 2022 expired on 31 December 2025 and due to the Company's continuing demand for financial services, the Company entered into a new Financial Services Framework Agreement with BEH Finance on 15 November 2025. The term of such new agreement is three years commencing from 1 January 2026 and ending on 31 December 2028.

Report of the Directors

Property Lease Framework Agreement (II) between BEH and the Company

On 5 September 2024, in the ordinary and usual course of business, the Company and BEH entered into the Property Lease Framework Agreement (II), pursuant to which the Company has agreed to lease properties to BEH and/or its associates. The Property Lease Framework Agreement (II) shall come into effect upon signing by the legal representatives or authorized representatives of the Company and BEH (i.e. on 5 September 2024) and shall expire on 31 December 2025. As the Property Lease Framework Agreement (II) entered into on 5 September 2024 expired on 31 December 2025, the Company entered into the new Property Lease Framework Agreement (II) with BEH on 12 November 2025. The term of such new agreement is three years commencing from 1 January 2026 and ending on 31 December 2028. The Company estimates that the proposed annual caps for the Property Lease Framework Agreement (II) for each of the three years ending 31 December 2028 will all be RMB40.0 million. The transactions and annual caps under the Property Lease Framework Agreement (II) have been approved by the Board on 12 November 2025.

Finance Leasing Business Framework Agreement between BEH and the Company

On 27 July 2022, Shenzhen Jingneng Leasing and BEH entered into the SZ Finance Leasing Framework Agreement. Pursuant to the agreement, Shenzhen Jingneng Leasing will provide finance leasing services, including sale and leaseback services and direct finance leasing services, to BEH and/or its associates and receive rental income from BEH and/or its associates for the provision of such finance leasing services. The proposed annual cap for the provision of finance leasing services by Shenzhen Jingneng Leasing to BEH and/or its associates is RMB2,500 million. The SZ Finance Leasing Framework Agreement and its annual cap have been approved at the third extraordinary general meeting of 2022 of the Company on 6 September 2022. As the SZ Finance Leasing Framework Agreement expired on 31 December 2022, the Company (instead of Shenzhen Jingneng Leasing) and BEH entered into a new finance leasing business framework agreement (the “**Finance Leasing Business Framework Agreement**”) on 8 November 2022. The term of such new agreement is three years commencing from 1 January 2023 and ending on 31 December 2025. The Finance Leasing Business Framework Agreement and its annual cap have been approved at the fourth extraordinary general meeting of 2022 of the Company on 29 December 2022. As the Finance Leasing Business Framework Agreement entered into on 8 November 2022 expired on 31 December 2025, the Company and BEH entered into the new Finance Leasing Business Framework Agreement on 12 November 2025. The term of such new agreement is three years commencing from 1 January 2026 and ending on 31 December 2028. The Company estimates that the proposed annual caps for the Finance Leasing Business Framework Agreement for each of the three years ending 31 December 2028 will be RMB2,400 million, RMB1,800 million and RMB1,700 million, respectively (including principal, interest payment and other fees, if any). The Finance Leasing Business Framework Agreement and its annual caps have been approved at the third extraordinary general meeting of 2025 of the Company on 23 December 2025.

Integrated Energy Supply Framework Agreement between BEH and the Company

On 5 September 2024, in the ordinary and usual course of business, the Company and BEH entered into the Integrated Energy Supply Framework Agreement, pursuant to which the Group has agreed to provide and BEH and/or its associates have agreed to purchase various energy (including cooling, heating, electricity and water) from the Group. The Integrated Energy Supply Framework Agreement shall come into effect upon signing by the legal representatives or authorized representatives of the Company and BEH (i.e. on 5 September 2024) and shall expire on 31 December 2025. As the Integrated Energy Supply Framework Agreement entered into on 5 September 2024 expired on 31 December 2025, the Company entered into the new Integrated Energy Supply Framework Agreement with BEH on 12 November 2025. The term of such new agreement is three years commencing from 1 January 2026 and ending on 31 December 2028. The Company estimates that the proposed annual caps for the Integrated Energy Supply Framework Agreement for each of the three years ending 31 December 2028 will be RMB120 million, RMB125 million and RMB130 million, respectively. The transactions and annual caps under the Integrated Energy Supply Framework Agreement have been approved by the Board on 12 November 2025.

Engineering Construction Framework Agreement between BEH and the Company

On 12 November 2025, in the ordinary and usual course of business, the Company and BEH entered into the Engineering Construction Framework Agreement. The term of such agreement is three years commencing from 1 January 2026 and ending on 31 December 2028. Pursuant to the agreement, the Group has agreed to engage BEH and/or its associates to provide engineering design and construction services for the Group's construction projects, including the contracting and/or subcontracting of electrical engineering, construction engineering, municipal engineering and other ancillary works. The Engineering Construction Framework Agreement shall come into effect upon signing by the legal representatives or authorized representatives of the Company and BEH (i.e. on 12 November 2025) and shall expire on 31 December 2028. The Company estimates that the proposed annual caps for the Engineering Construction Framework Agreement for each of the three years ending 31 December 2028 will be RMB550 million, RMB600 million and RMB650 million, respectively. The transactions and annual caps under the Engineering Construction Framework Agreement have been approved by the Board on 12 November 2025.

BEH is the controlling shareholder of the Company, directly and indirectly holding approximately 68.68% of the issued share capital of the Company. Therefore, it is a connected person of the Company pursuant to Rule 14A.07(1) of the Listing Rules. Accordingly, the transactions under the Power Sales Agreements constitute continuing connected transactions of the Company. Pursuant to Rule 14A.81 of the Listing Rules, a series of connected transactions will be aggregated and treated as if they were one transaction if they were all entered into or completed within a 12-month period or are otherwise related. The counterparties to the Power Sales Agreements are associates of BEH, and the nature of such transactions is similar. As such, the Power Sales Agreements shall be aggregated. As the highest applicable percentage ratio of the aggregate contract value of the Power Sales Agreements exceeds 0.1% but is less than 5%, the transactions under the Power Sales Agreements are subject to the reporting, annual review and announcement requirements but are exempted from the independent shareholders' approval requirement according to Chapter 14A of the Listing Rules. The Company is required to comply with the annual review and disclosure requirements under Chapter 14A of the Listing Rules, including the announcement and annual reporting requirements regarding the aforementioned continuing connected transactions between certain subsidiaries of the Group and the associates of BEH. For details regarding the aforementioned transactions, please refer to the announcement of the Company dated 27 February 2026 and the supplemental announcement of the Company dated 14 April 2026.

Shenzhen Jingneng Leasing and BEH and its associates entered into the following agreements in respect of the continuing connected transactions between them, so as to regulate the continuing connected transactions carried out between the parties. Details of such connected transactions are set out below:

Continuing Connected Transactions pursuant to Rule 14A.60 of the Listing Rules

Prior to completion of the Shenzhen Jingneng Leasing Equity Acquisition, Shenzhen Jingneng Leasing had provided sale and leaseback services, direct finance leasing services and factoring services to associates of BEH, the controlling shareholder of the Company, and entered into relevant agreements with them. In addition, Beijing Jingneng Leasing, a wholly-owned subsidiary of BEH, entered into the operation management service agreement with Shenzhen Jingneng Leasing, pursuant to which, Beijing Jingneng Leasing had agreed to provide operation management services to Shenzhen Jingneng Leasing. According to Chapter 14A of the Listing Rules, BEH and its associates are connected persons of the Company. Therefore, the above transactions constitute continuing connected transactions of the Company after the completion of the Shenzhen Jingneng Leasing Equity Acquisition.

Pursuant to Rule 14A.60 of the Listing Rules, the Company is required to comply with the annual review and disclosure requirements under Chapter 14A of the Listing Rules, including publishing an announcement and annual reporting in respect of the above continuing connected transactions between Shenzhen Jingneng Leasing and the associates of BEH. The Company will further comply with all applicable reporting, disclosure and independent shareholders’ approval requirements under Chapter 14A of the Listing Rules upon any variation or renewal of such agreements. Please refer to the announcement of the Company dated 20 June 2022 and the further announcement dated 15 July 2022 for details of the above transactions.

Report of the Directors

(1) *Sales and Leaseback Agreement*

Prior to completion of the Shenzhen Jingneng Leasing Equity Acquisition, Shenzhen Jingneng Leasing has entered into 20 sales and leaseback agreements with BEH's associates, including the sales and leaseback agreements entered into with Inner Mongolia Jingtai, Ningxia Jingneng Ningdong, Inner Mongolia Jingneng Kangbashi and Shanxi Jingyu on 25 April 2016 respectively; the sales and leaseback agreements entered into with Huzhou Yuanxing on 11 February 2018 and 28 January 2019; the sales and leaseback agreements entered into with Yongsheng Huiguang and Yongren Huiguang on 17 August 2020 respectively; and the sales and leaseback agreement entered into with Jiangxi Yichun Jingneng on 17 June 2022.

Pursuant to the above sales and leaseback agreements, Shenzhen Jingneng Leasing purchased the leased assets from BEH's associates and then leased the same back to such BEH's associates for an agreed term and received lease payment on a periodic basis. Please refer to the announcement of the Company dated 20 June 2022 for details of the sales and leaseback agreements.

For the aforesaid sales and leaseback agreements, except the sales and leaseback agreement with Jingneng Power Zhuozhou which remained unchanged, other agreements have been settled early or subject to interest rate adjustments pursuant to the finance leasing framework agreement.

(2) *Direct Finance Leasing Agreements*

Prior to completion of the Shenzhen Jingneng Leasing Equity Acquisition, Shenzhen Jingneng Leasing has entered into 22 direct finance leasing agreements with BEH's associates, including the direct finance leasing agreement entered into with Yuanshen Taizhou on 12 May 2017; the direct finance leasing agreements entered into with Yuanshen Jiaxing on 25 May 2017, 29 January 2018 and 22 September 2021; the direct finance leasing agreement entered into with Huzhou Yuanxing on 13 June 2017; the direct finance leasing agreement entered into with Huzhou Yuanxun on 13 June 2017; the direct finance leasing agreement entered into with Yuanshen Suzhou on 21 December 2017; the direct finance leasing agreement entered into with Tongxiang Nanxun on 27 May 2020; the direct finance leasing agreement entered into with Tongxiang Nanhu on 5 June 2020; the direct finance leasing agreements entered into with Tongxiang Ningbo, Tongxiang Pinghu and Tongxiang Shaoxing on 4 June 2020 respectively; the two direct finance leasing agreements entered into with Ningxia Hongdunzi on 22 November 2021; the direct finance leasing agreement entered into with Yuanshen Suzhou on 18 November 2021; the direct finance leasing agreement entered into with Jingneng Jiaxing on 20 December 2021; the four direct finance leasing agreements entered into with Jingneng Energy on 14 September, 15 September and 16 September 2021; the direct finance leasing agreement entered into with Chaling Jingneng on 23 March 2022; and the direct finance leasing agreement entered into with Jiayan Beijing on 11 May 2022.

Under the direct finance leasing agreements, Shenzhen Jingneng Leasing purchased the leased assets from the relevant suppliers upon the instructions of associates of BEH, and then leased such assets to BEH's associates for an agreed term and received lease payment on a periodic basis. The lease term generally commences from the delivery of all equipment under a direct finance leasing agreement by supplier(s) to BEH's associates. Shenzhen Jingneng Leasing may charge interest from the associates of BEH for any purchase price paid by it to the relevant supplier(s) before the commencement of the lease term. Please refer to the announcement of the Company dated 20 June 2022 and the further announcement dated 15 July 2022 for details of the direct finance leasing agreements.

The aforesaid direct finance leasing agreements have been settled early or subject to interest rate adjustment pursuant to the finance leasing business framework agreement.

Report of the Directors

(3) *Operation Management Service Agreements and Framework Agreements between Shenzhen Jingneng Leasing and Beijing Jingneng Leasing*

On 28 December 2021, Shenzhen Jingneng Leasing entered into an operation management service agreement with Beijing Jingneng Leasing, pursuant to which, Beijing Jingneng Leasing has agreed to provide operation management services to Shenzhen Jingneng Leasing. The term of such agreement is one year from 1 January 2022 to 31 December 2022. On 24 April 2022, Shenzhen Jingneng Leasing and Beijing Jingneng Leasing entered into a supplemental agreement to the operation management service agreement to adjust the payment terms of the operation management service agreement. As the operation management service agreement shall expire on 31 December 2022, on 8 November 2022, Shenzhen Jingneng Leasing entered into an operation management service framework agreement with Beijing Jingneng Leasing, pursuant to which, Beijing Jingneng Leasing has agreed to provide operation management services to Shenzhen Jingneng Leasing. The term of this agreement is three years from 1 January 2023 to 31 December 2025. As the operation management service agreement expired on 31 December 2022, on 12 November 2025, in the ordinary and usual course of business, Shenzhen Jingneng Leasing entered into an operation management service framework agreement with Beijing Jingneng Leasing, pursuant to which, Beijing Jingneng Leasing has agreed to provide operation management services to Shenzhen Jingneng Leasing. Report of the Directors

The transaction contemplated under the Waste Heat Utilization Construction Agreement is aggregated with the construction agreement for the main body of the blade manufacturing plants and relevant ancillary buildings entered into between Shantou Jingneng Clean Energy Co., Ltd. ("**Shantou Jingneng**", a wholly-owned subsidiary of the Company) and Beijing Jingneng Construction on 28 May 2024 (the "**Construction Agreement II**"), the supplementary construction agreement for the expansion project of the integrated

Report of the Directors

BEH Finance Capital Increase Agreement

On 24 March 2025, BEH, the Company, Jingneng Power and BEH Finance entered into the Capital Increase Agreement in relation to the capital increase of BEH Finance in an aggregate amount of RMB5 billion, pursuant to which, the registered capital of BEH Finance will be increased from RMB5 billion to RMB10 billion, of which, BEH, the Company and Jingneng Power will subscribe RMB3 billion, RMB1 billion and RMB1 billion, respectively. The transactions under the Capital Increase Agreement have been approved by the Board on 24 March 2025.

BEH is the controlling shareholder of the Company. Jingneng Power and BEH Finance, being subsidiaries of BEH, are associates of BEH and therefore are connected persons of the Company under Chapter 14A of the Listing Rules. As such, pursuant to Chapter 14A of the Listing Rules, the transactions under the Capital Increase Agreement constitute connected transactions of the Company. As the highest applicable percentage ratio for the transactions contemplated under the Capital Increase Agreement exceeds 5%, such transactions are subject to the reporting, announcement and independent shareholders' approval requirements under Chapter 14A of the Listing Rules. The Capital Increase Agreement and the transactions thereunder have been approved at the first extraordinary general meeting of 2025 of the Company on 16 May 2025. For details, please refer to the announcement of the Company dated 24 March 2025, the circular of the Company dated 25 April 2025 and the announcement of poll results of extraordinary general meeting of the Company dated 16 May 2025.

Note 46 to the Financial Statements disclosed the related party transactions. Pursuant to the Listing Rules, notes 46(d) constitute continuing connected transactions between the Group and BEH and its associates as disclosed above. The Company has complied with the disclosure requirements governing connected transactions under the Listing Rules.

Review and Confirmation by Independent Non-executive Directors

The independent non-executive Directors of the Company have reviewed the above continuing connected transactions, and confirmed that such transactions were:

- (1) carried out in the ordinary and usual course of business of the Group;
- (2) made on normal commercial terms; and
- (3) carried out according to the terms in the relevant transaction agreements, which are fair and reasonable, and in the interests of our Company's shareholders as a whole.

Confirmation of the Auditor

The Company's auditor was engaged to report on the Group's continuing connected transactions in accordance with Hong Kong Standard on Assurance Engagements 3000 (Revised) "Assurance Engagements Other Than Audits or Reviews of Historical Financial Information" and with reference to Practice Note 740 "Auditor's Letter on Continuing Connected Transactions under the Hong Kong Listing Rules" issued by the Hong Kong Institute of Certified Public Accountants.

Pursuant to Rule 14A.56 of the Listing Rules, the Company must engage its auditor to report on the continuing connected transaction every year. The auditor has provided a letter to the Company's Board confirming the following in respect of the aforementioned continuing connected transactions:

- (i) The auditor is not aware of any matters that would lead them to believe that the continuing connected transactions have not been approved by the Board, except for the power sales transactions under the Power Sales Agreements set forth on pages 59 to 61 of this Annual Report which have not been approved by the Board;
- (ii) With respect to the provision of goods or services by the Group, the auditor is not aware of any matters that would lead them to believe that the any continuing connected transactions were not, in all material aspects, conducted in accordance with the pricing policies of the Group;
- (iii) The auditor is not aware of any matters that would lead them to believe that any continuing connected transactions were not, in all material respects, conducted in accordance with the agreements governing such transactions; and
- (iv) The auditor is not aware of any matters that would lead them to believe that the continuing connected transactions exceeded the annual caps, except for the power sales transactions under the Power Sales Agreements set forth on pages 59 to 61 of this Annual Report for which no annual caps have been set.

The Directors confirmed that the Company has complied with the requirements under Chapter 14A of the Listing Rules with regard to the abovementioned connected transactions, except for the Power Sales Agreements between the associates of BEH and the Company as set forth on pages 59 to 61 of this Annual Report.

COMPLIANCE WITH THE NON-COMPETITION AGREEMENT

The Company and BEH entered into a Non-Competition Agreement and a Supplemental Non-Competition Agreement on 13 June 2011 and 2 December 2011 respectively, under which, BEH agrees that it will not (and it will procure that its subsidiaries (other than listed subsidiaries) will not) compete with the Company in the gas-fired power and heat energy generation business, wind power business, hydro-power business and other clean energy generation business (the **"core business" of the Company**), and will grant the Company options for new business opportunities and acquisitions, as well as pre-emptive rights. The independent non-executive Directors of the Company are responsible for approving, considering and deciding on the acceptance of new business opportunities introduced by BEH and/or its subsidiaries.

During the year, the Company's independent non-executive Directors have reviewed the implementation of the Non-Competition Agreement and confirmed that BEH has fully observed the Agreement without any case of violation.

Report of the Directors

MAJOR CUSTOMERS AND SUPPLIERS

For the year ended 31 December 2025, the total volume of purchases from the five largest suppliers of the Company accounted for 67.6% of the total purchase volume of the year. The purchase from the largest supplier accounted for 52% of the total volume of purchases of the year.

For the year ended 31 December 2025, the total revenue generated from the five largest customers of the Company accounted for 96% of the total revenue of the year. The revenue generated from the largest customer accounted for 78% of the total revenue of the year.

During the year, statistics were made on the sales to the prefectural-level power grid companies as the same customer (of which the parent company is either State Grid Corporation of China or China Southern Power Grid Company Limited).

During the year, to the knowledge of the Directors, none of the Directors, their close associates, or Shareholders of the Company (which, to the knowledge of the Directors, owned more than 5% equity interest of the Company's share capital) had interests in the five largest suppliers or customers of the Company.

RETIREMENT AND EMPLOYEE BENEFITS SCHEME

Please refer to note 45 to the Financial Statements for detailed information on the retirement and employee benefits scheme.

COMPLIANCE WITH THE CORPORATE GOVERNANCE CODE

As a company listed on the Stock Exchange, the Company always strives to maintain a high level of corporate governance. Save for the temporary deviation as mentioned below, the Company has complied with all code provisions as set out in the Corporate Governance Code as set out in Appendix C1 to the Listing Rules for the year ended 31 December 2025.

Pursuant to Code Provision B.3.5 of the Corporate Governance Code effective from 1 July 2025, the Company should appoint at least one director of a different gender to the nomination committee. The Company's Remuneration and Nomination Committee at that time consisted of Ms. Zhao Jie, Ms. Zhang Yi and Ms. Hu Zhiying, all of whom are female Directors. Therefore, from 1 July 2025, the Company was not in full compliance with Code Provision B.3.5 of the Corporate Governance Code regarding gender diversity in the nomination committee. To comply with the relevant requirements of the Corporate Governance Code, the Company has actively facilitated internal coordination and, on 28 September 2025, appointed a Director of a different gender, i.e. Mr. Wang Hongxin, as a member of the Remuneration and Nomination Committee to rectify such deviation.

RELATIONSHIP WITH STAKEHOLDERS

The Company recognises that our employees, customers and business associates are keys to our sustainability journey. We strive to achieve corporate sustainability through engaging our employees, providing quality services for our customers, collaborating with business partners and supporting our community.

The Company places significant emphasis on human resources. The Company provides a fair workplace, promoting non-discrimination and diversity to our staff, together with competitive remuneration and benefits, as well as a range of opportunities for career advancement based on employees' merits and performance. The Company administers its employee health and safety management system and ensures the adoption and execution of the principles across the Group. The Company provides regular trainings for staff to keep them abreast of the latest developments in the market and industry, in the form of both internal trainings and trainings provided by experts from external organizations.

The Company values the feedback from customers by daily communication and other means. The Company has also established the mechanism about customer service and support. The Company treats providing customer support as an opportunity to improve our relationship with the customer, addressing customer's concern in a timely manner and in accordance with international standards.

We believe that our suppliers are equally important in driving quality delivery of our project developments. Therefore, we proactively collaborate with our business partners (including suppliers and contractors) to deliver quality sustainable services.

PUBLIC FLOAT

Based on the information that is publicly available to the Company and to the knowledge of the Directors, the Company has maintained a public float of no less than 25% of the issued shares prior to the publication of this Annual Report and up to the Latest Practicable Date, which was in line with the requirement under the Listing Rules.

SIGNIFICANT LEGAL PROCEEDINGS

For the year ended 31 December 2025, the Company was not engaged in any litigation or arbitration of material importance and no litigation or claim of material importance is known to the Directors to be pending or threatened against the Company.

AUDIT COMMITTEE

The Audit Committee of the Company has reviewed the Group's 2025 annual results and the financial statements for the year ended 31 December 2025 were prepared in accordance with the IFRS Accounting Standards ("**IFRS Accounting Standards**").

Report of the Directors

AUDITORS

Pursuant to the relevant provisions of the Administrative Measures for the Selection and Appointment of Accounting Firms by State-Owned Enterprises and Listed Companies (Cai Kuai [2023] No. 4) (《國有企業、上市公司選聘會計師事務所管理辦法》(財會[2023]4號)) regarding the limit of consecutive years of audit services provided by accounting firms to state-owned enterprises, Deloitte Touche Tohmatsu retired as the international auditor of the Company upon expiration of its term of office with effect from 18 June 2025. Following an open tender process and upon consideration and approval by the Board and the Audit Committee under the Board, the Board proposed to appoint KPMG as the international auditor of the Company for 2025, with its term commencing on the date of approval at the general meeting of the Company and ending upon the conclusion of the 2025 annual general meeting of the Company. The aforementioned proposed appointment of accounting firm took effect upon approval by the shareholders at the general meeting of the Company. For details of the aforementioned change of accounting firm, please refer to the announcements of the Company dated 16 June 2025 and 1 August 2025, the circular of the Company dated 6 August 2025, and the poll results announcement of the Company dated 26 August 2025. Save as disclosed above, the Company was not involved in any other changes of accounting firm in the past three years.

KPMG and Baker Tilly International Certified Public Accountants (Special General Partnership) were appointed as the international and domestic auditors of the Company, respectively, for the year ended 31 December 2025. The Company's Financial Statements for the year 2025 prepared in accordance with IFRS Accounting Standards have been audited by KPMG.

FINANCIAL HIGHLIGHTS

Summary of results of operation and the assets and liabilities of the Group for the last five financial years is set out on pages 2 to 4 in the Annual Report.

The biographical information of the Directors is set out in the section headed "Profiles of Directors and Senior Management" on pages 28 to 36 of this Annual Report.

None of the members of the Board is related to one another.

Chairman and General Manager

The Chairman of the Board is Mr. CHEN Dayu and the General Manager of the Company is Mr. LI Minghui. The positions of the Chairman of the Board and the General Manager are held by separate persons in order to preserve independence and a balance of views and judgment. The Chairman of the Board provides leadership to the Company and the Board and is responsible for the effective functioning and leadership of the Board in accordance with good corporate governance practice. The General Manager focuses on implementing objectives, policies and strategies approved and delegated by the Board.

Independent non-executive Directors

During the year ended 31 December 2025, the Board at all times met the requirements of the Listing Rules relating to the appointment of at least three independent non-executive Directors representing one-third of the Board with at least one of whom possessing appropriate professional qualifications or accounting or related financial management expertise.

The Company has received written annual confirmation from each of the independent non-executive Directors in respect of his/her independence in accordance with the independence guidelines set out in Rule 3.13 of the Listing Rules. The Company considers that all independent non-executive Directors are independent.

Directors' Re-election

Code provision B.2.2 of the part two of the CG Code also specifies that every director, including those appointed for a specific term, shall be subject to retirement by rotation at least once every three years.

Pursuant to the Articles of Association, Directors of the Company (including the non-executive Directors) shall be elected by the general meeting and serve a term of three years. Upon the expiry of their terms of office, the Directors may be re-elected and re-appointed.

Responsibilities, Accountabilities and Contributions of the Board and Management

The Board should assume responsibility for leadership and control of the Company, and is collectively responsible for directing and supervising the Company's affairs.

The Board directly, and indirectly through its committees, leads and provides direction to management by laying down strategies and overseeing their implementation, monitors the Group's operational and financial performance, and ensures that sound internal control and risk management systems are in place.

All Directors, including non-executive Directors and independent non-executive Directors, have brought a wide spectrum of valuable business experience, knowledge and professionalism to the Board for its efficient and effective functioning. The independent non-executive Directors are responsible for ensuring a high standard of regulatory reporting of the Company and providing a balance in the Board for bringing effective independent judgement on corporate actions and operations.

Corporate Governance Report

The Company has established a mechanism to ensure provision of independent views and advice to the Board. The Company ensures that the Board has access to independent views and advices through the following mechanism: the Remuneration and Nomination Committee will conduct annual review on the composition of the Board and the independence of the independent non-executive Directors as well as the continued independence of the current long-serving independent non-executive Directors; all independent non-executive Directors are required to submit a written confirmation to the Company to confirm the independence of each of them in accordance with Rule 3.13 of the Listing Rules. The Company considers these independent non-executive Directors are independent. The Board comprises four independent non-executive Directors (representing more than one third of the Board) to maintain adequate checks and balances, and these Directors continue to devote adequate time commitment to the Company. The chairman of the Board holds at least one meeting with the independent non-executive Directors every year to obtain independent views on each topic of the Company. The Company has in place policies and procedures to avoid any potential interest conflicts, and any Directors (including the independent non-executive Directors) who have material interests in any contracts, transactions or arrangements is required to abstain from voting on the relevant resolutions to ensure the objectivity and integrity of the Board's decision-making. All members of the Board (including the independent non-executive Directors) may seek independent professional advice when necessary, at the Company's expenses, for discharging their duties, and appoint independent non-executive Directors to serve at the Board committees in appropriate circumstances to ensure accessibility of independent views to each committee. The Board reviews the implementation and effectiveness of the relevant mechanism every year.

The Directors shall disclose to the Company details of other offices held by them.

The Board reserves for its decision all major matters relating to policy matters, overall strategies and budgets, internal control and risk management systems, material transactions (in particular those that may involve conflict of interests), financial information, nomination of Directors and other significant financial and operational matters of the Company. Responsibilities relating to implementing decisions of the Board, directing and coordinating the daily operation and management of the Company are delegated to the management.

Continuous Professional Development of Directors

Directors keep abreast of responsibilities as a Director of the Company and of the conduct, business activities and development of the Company.

Every newly appointed Director will receive induction on the first occasion of his/her appointment to ensure appropriate understanding of the business and operations of the Company and full awareness of Director's responsibilities and obligations under the Listing Rules and relevant statutory requirements. Such induction shall be supplemented by visits to the Company's key plant sites and meetings with senior management of the Company.

Corporate Governance Report

Directors should participate in appropriate continuous professional training to develop and refresh their knowledge and skills to ensure that they continue to make contribution to the Board. Internally-facilitated training briefings for Directors will be arranged and reading material on relevant topics will be issued to Directors where appropriate. All Directors are encouraged to attend relevant training courses at the Company's expenses.

During the year 2025, the Company organized training sessions conducted by the legal advisers for the Directors, namely Mr. CHEN Dayu, Mr. LI Minghui, Mr. ZHANG Wei, Mr. ZHOU Jianyu, Mr. SONG Zhiyong (resigned on 23 December 2025), Mr. GUO Yao (appointed on 23 December 2025), Ms. ZHANG Yi, Ms. ZHAO Jie, Mr. WANG Hongxin, Mr. QIN Haiyan and Ms. HU Zhiying. The training session(s) covered a wide range of relevant topics including directors' duties and responsibilities, corporate governance and regulatory updates, etc. Mr. GUO Yao confirms that, on 16 December 2025, he obtained the legal advice as described in Rule 3.09D of the Listing Rules, that he understands the requirements under the Listing Rules that are applicable to him as a director of a listed issuer and the possible consequences of making a false declaration or giving false information to the Stock Exchange, and that he understands his obligations as a Director of the Company.

Corporate Governance Report

BOARD COMMITTEES

The Board has established 4 committees, namely, the Audit Committee, the Remuneration and Nomination Committee, the Strategy and ESG Committee and the Legal and Compliance Management Committee, for overseeing particular aspects of the Company's affairs. All Board committees of the Company are established with specific written terms of reference which deal clearly with their authority and duties. The terms of reference of the Audit Committee and the Remuneration and Nomination Committee are posted on the Company's website and the Stock Exchange's website and are available to Shareholders upon request.

Each Board committee includes independent non-executive Directors as members and the list of the chairman and members of each Board committee is set out under "Corporate Information" on page 240.

AUDIT COMMITTEE

The Audit Committee comprises one non-executive Director, namely Mr. GUO Yao, and two independent non-executive Directors, namely Ms. ZHAO Jie and Ms. HU Zhiying (serving as the chairperson), with independent non-executive Directors in majority (including one independent non-executive Director with the accounting expertise). None of the members of the Audit Committee is a former partner of the Company's existing auditors.

Mr. SONG Zhiyong ceased to be a member of the Audit Committee on 23 December 2025.

The main duties of the Audit Committee are to assist the Board in reviewing the financial information and reporting process, risk management and internal control systems, effectiveness of the internal audit function, audit plan and relationship with external auditors, and evaluating arrangements to enable employees of the Company to raise, in confidence, concerns about possible improprieties in financial reporting, internal control or other matters of the Company.

During the year ended 31 December 2025, the Audit Committee held 5 meetings to review the interim and annual financial results and reports and significant issues such as the financial reporting and compliance procedures, internal control and risk management systems, effectiveness of the internal audit function, and scope of work, resignation and appointment of external auditors.

The Audit Committee also met the external auditors once without the presence of the executive Directors.

Remuneration and Nomination Committee

The Remuneration and Nomination Committee comprises three members, namely Ms. ZHAO Jie (serving as the chairperson), and Mr. WANG Hongxin (appointed as a member on 28 September 2025), both are independent non-executive Directors, and Ms. ZHANG Yi, a non-executive Director.

Ms. HU Zhiying ceased to be a member of the Remuneration and Nomination Committee on 28 September 2025.

The primary functions of the Remuneration and Nomination Committee include reviewing and making recommendations to the Board on the remuneration packages of individual executive Directors and senior management, the remuneration policy and structure for all Directors and senior management; establishing transparent procedures for developing such remuneration policy and structure to ensure that no Director or any of his/her associates will participate in deciding his/her own remuneration; and reviewing and/or approving the matters relating to the share schemes of the Company (if any) in accordance with Chapter 17 of the Listing Rules.

The Remuneration and Nomination Committee is also responsible for reviewing the Board composition at least annually, developing and formulating relevant procedures for the nomination and appointment of Directors, making recommendations to the Board on the appointment and succession planning of Directors, and assessing the independence of independent non-executive Directors.

In assessing the Board composition, the Remuneration and Nomination Committee would take into account various aspects as well as factors concerning Board diversity as set out in the Company's Board Diversity Policy. The Remuneration and Nomination Committee would discuss and agree on measurable objectives for achieving diversity on the Board, where necessary, and recommend them to the Board for adoption.

In identifying and selecting suitable candidates for directorships, the Remuneration and Nomination Committee would consider the candidate's relevant criteria as set out in the Director Nomination Policy that are necessary to complement the corporate strategy and achieve Board diversity, where appropriate, before making recommendations to the Board.

During the year, the Remuneration and Nomination Committee held 5 meetings.

The Remuneration and Nomination Committee reviewed and made recommendations to the Board on the remuneration policy and the remuneration packages of the executive Directors and senior management, as well as assessed the performance of executive Directors and approved the terms of executive Directors' service contracts.

The Remuneration and Nomination Committee also reviewed the structure, size and composition of the Board and the independence of the independent non-executive Directors at least annually, and considered the qualifications of the retiring Directors standing for election at the general meeting.

The Remuneration and Nomination Committee considered an appropriate balance of diversity perspectives of the Board is maintained.

Corporate Governance Report

Strategy and ESG Committee

The current members of the Strategy and ESG Committee are three executive Directors, namely Mr. CHEN Dayu (serving as the chairman), Mr. LI Minghui and Mr. ZHANG Wei, and one independent non-executive Director, which is Mr. QIN Haiyan.

In response to the new regulatory requirements promulgated by the Stock Exchange regarding ESG-related matters, and to further enhance the Board's effectiveness in ESG management and its capabilities in sustainability management, as well as to improve the Company's overall ESG management system, on 28 September 2025, the Board resolved to rename the Strategy Committee as the Strategy and ESG Committee under the Board. The primary function of the Strategy and ESG Committee is to make recommendations to the Board on the long-term development strategies of the Company and to oversee ESG-related matters.

During the year, the Strategy and ESG Committee held 4 meetings.

Legal and Compliance Management Committee

The current members of the Legal and Compliance Management Committee are Mr. ZHOU Jianyu (serving as the chairman), a non-executive Director, Mr. LI Minghui, an executive Director, and Ms. HU Zhiying (appointed as a member on 28 September 2025), an independent non-executive Director.

Mr. WANG Hongxin ceased to be a member of the Legal and Compliance Management Committee on 28 September 2025.

The primary function of the Legal and Compliance Management Committee is to further enhance the Company's capability of preventing and mitigating significant risks associated with the operation of the Company.

During the year, the Legal and Compliance Management Committee held 2 meetings.

Board Diversity Policy

The Company has adopted a Board Diversity Policy which sets out the approach to achieve diversity of the Board and is available on the website of the Company. The Company recognises and embraces the benefits of having a diverse Board and sees increasing diversity at the Board level as an essential element in maintaining the Company's competitive advantage as well as a key element in attaining its strategic objectives and sustainable development. The Board currently has three female directors in position.

Pursuant to the Board Diversity Policy, the Remuneration and Nomination Committee will review annually the structure, size and composition of the Board and where appropriate, make recommendations on changes to the Board to complement the Company's development strategy. In relation to reviewing and assessing the Board composition and the nomination of directors, the Remuneration and Nomination Committee is committed to diversity at all levels and will consider a number of aspects, including but not limited to gender, age, cultural and educational background, professional qualifications, skills, knowledge and industry and regional experience and term of service.

The Company aims to maintain an appropriate balance of diversity perspectives that are relevant to the Company's business growth and is also committed to ensuring that the selection and nomination of Board positions are appropriately structured so that a diverse range of candidates are considered.

The Company considers that the Board has a well-balanced cultural background, educational background, industry experience and professional experience. The Board has set measurable objectives to implement the Board Diversity Policy and reviewed such objectives from time to time to ensure their appropriateness and ascertain the progress made towards achieving those objectives.

The Board conducts annual review on the implementation of the Board Diversity Policy to ensure its effectiveness.

As of 31 December 2025, the Group had 3,260 employees, including 2,635 male employees and 625 female employees. The proportion of male and female employees to our total workforce (including senior management) was approximately 80.83% and 19.17%. Differences in education degree, culture background, professional background and job requirements are the main factors dominating the employee gender diversity. The principal businesses of the Company are wind power generation, photovoltaic power generation, gas-fired power and heat energy generation, hydropower generation and other businesses related to clean energy, with the industry feature of high concentration of male employees. The Company recognises the benefits of employee diversity, and will make every possible effort to promote employee diversity, especially gender diversity. In order to promote gender diversity, and on the premise of offering equal opportunities for recruitment, career development and promotion, the Company will continue to introduce all kinds of professional talents of both genders according to its own development needs, and take gender diversity into consideration for recruitment and selection of senior management and employees, with an aim to cultivate and build a talent team with reasonable structure, gender diversity and equal opportunities.

RISK MANAGEMENT AND INTERNAL CONTROLS

The Board acknowledges its responsibility for the risk management and internal control systems and reviewing their effectiveness. Such systems are designed to manage rather than eliminate the risk of failure to achieve business objectives, and can only provide reasonable and not absolute assurance against material misstatement or loss.

The Board has the overall responsibility for evaluating and determining the nature and extent of the risks it is willing to take in achieving the Company's strategic objectives, and establishing and maintaining appropriate and effective risk management and internal control systems.

The Audit Committee assists the Board in leading the management and overseeing their design, implementation and monitoring of the risk management and internal control systems.

The Company has developed and adopted various risk management procedures and guidelines with defined authority for implementation by key business processes and office functions, including project management, sales and leasing, financial reporting, human resources and information technology.

All divisions/departments conducted internal control assessment regularly to identify risks that potentially impact the business of the Group and various aspects including key operational and financial processes, regulatory compliance and information security. Self-evaluation has been conducted annually to confirm that control policies are properly complied with by each division/department.

The management, in coordination with division/department heads, assessed the likelihood of risk occurrence, provided treatment plans, and monitored the risk management progress, and reported to the Audit Committee and the Board on all findings and the effectiveness of the systems.

Review on the risk management and internal control system is conducted once a year, covering the period from 1 January 2025 to 31 December 2025. The management has confirmed to the Board and the Audit Committee on the effectiveness of the risk management and internal control systems for the year ended 31 December 2025.

The Company has established its internal audit function and performed independent review of the adequacy and effectiveness of the risk management and internal control systems. The internal audit function examined key issues in relation to the accounting practices and all material controls and provided its findings and recommendations for improvement to the Audit Committee.

The Board, as supported by the Audit Committee as well as the management report and the internal audit findings, reviewed the risk management and internal control systems, including the financial, operational and compliance controls, for the year ended 31 December 2025, and considered that such systems are effective and adequate. The annual review also covered the adequacy of resources, staff qualifications and experience, training programmes and budget of the Group's accounting, internal audit and financial reporting functions as well as the ESG performance and reporting.

Corporate Governance Report

The Group has in place effective whistleblowing policies for the employees and relevant third parties (namely the clients, suppliers, creditors and debtors) to report any suspected violation, fraud and corruption practice through designated channels. Independent investigation will be conducted for any reported case. Meanwhile, all the information provided by the whistle-blowers and the identity of the whistle-blowers will be kept confidential. The Group will continue to improve its internal control and disciplinary system, and immediate actions will be taken when any illegal behaviour is discovered.

The Board and the Audit Committee will conduct regular review on the whistleblowing policies and mechanism to enhance their effectiveness.

The Company has developed its disclosure policy which provides a general guide to the Company's Directors, senior management and relevant employees in handling confidential information, monitoring information disclosure and responding to enquiries.

Control procedures have been implemented to ensure that unauthorized access and use of inside information are strictly prohibited.

The Group has in place an anti-corruption mechanism which forms a part of the corporate governance framework of the Group. The anti-corruption mechanism is reviewed and updated periodically to align with the applicable laws and regulations and the best practice of the industry.

DIRECTORS' RESPONSIBILITY IN RESPECT OF THE FINANCIAL STATEMENTS

The Directors acknowledge their responsibility for preparing the financial statements of the Company for the year ended 31 December 2025.

The Directors are not aware of any material uncertainties relating to events or conditions that may cast significant doubt upon the Company's ability to continue as a going concern.

The statement of the external auditor of the Company about their reporting responsibilities on the financial statements is set out in the Independent Auditor's Report on pages 95 to 96.

Where appropriate, a statement will be submitted by the Audit Committee explaining its recommendation regarding the selection, appointment, resignation or dismissal of external auditors and the reasons why the Board has taken a different view from that of the Audit Committee.

AUDITORS' REMUNERATION

During the year ended 31 December 2025, the remuneration paid and payable to the international auditor and domestic auditor for audit services was RMB6,261,000 in aggregate, and service fees for non-audit services paid and payable to the international auditor and domestic auditor (including their respective member firms) was RMB2,637,000 in aggregate, which was for the professional services relating to the financing and other special audits of the Group.

Independent Auditor's Report

TO THE SHAREHOLDERS OF BEIJING JINGNENG CLEAN ENERGY CO., LIMITED

(Incorporated in the People's Republic of China with limited liability)

OPINION

We have audited the consolidated financial statements of Beijing Jingneng Clean Energy Co., Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") set out on pages 97 to 237, which comprise the consolidated statement of financial position as at 31 December 2025, the consolidated statement of profit or loss, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended and notes, comprising material accounting policy information and other explanatory information.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2025, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with IFRS Accounting Standards as issued by the International Accounting Standard Board ("IASB") and have been properly prepared in compliance with the disclosure requirements of the Hong Kong Companies Ordinance.

BASIS FOR OPINION

We conducted our audit in accordance with International Standards on Auditing ("ISAs") as issued by the International Auditing and Assurance Standards Board ("IAASB"). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the audit of the consolidated financial statements section* of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' *International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code)* (the "Code"), as applicable to audits of financial statements of public interest entities. We have also fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independent Auditor's Report

KEY AUDIT MATTER

Key audit matter is the matter that, in our professional judgement, was of most significance in our audit of the consolidated financial statements of the current period. The matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Assessment of potential impairment of certain property, plant and equipment, intangible assets and right-of-use assets

Refer to Notes 16, 17 and 18 to the consolidated financial statements and the accounting policies in Note 3.

Key audit matter

As at 31 December 2025, the Group's property, plant and equipment, intangible assets and right-of-use assets ("non-current assets") had a total carrying value of RMB71,841 million.

In accordance with the prevailing accounting standards, management performed an assessment at the end of the reporting period to determine whether there was any indication that these non-current assets may be impaired.

Management performed an assessment for potential impairment by comparing the carrying amount of the cash-generating units ("CGUs") to which the non-current assets have been allocated with the recoverable amounts, determined by assessing the value-in-use through the preparation of discounted cash flow forecasts. Preparing discounted cash flow forecasts involves the exercise of significant management judgement, in particular in forecasting future sales volumes, on-grid tariffs and in determining an appropriate discount rate.

How the matter was addressed in our audit

Our audit procedures to address the assessment of potential impairment of certain property, plant and equipment, intangible assets and right-of-use assets included the following:

- obtaining an understanding of and assessing the design and implementation of key internal controls relating to assessment of potential impairment of certain property, plant and equipment, intangible assets and right-of-use assets;
- assessing the appropriateness of the methodologies used by management to estimate the recoverable amounts of CGUs with reference to the requirements of the prevailing accounting standards;
- challenging the reasonableness of significant judgements, such as future sales volumes, on-grid tariffs, by comparing with the historical performance and on-grid tariffs and government's policies on on-grid tariffs;

KEY AUDIT MATTER (continued)

Assessment of potential impairment of certain property, plant and equipment, intangible assets and right-of-use assets (continued)

Refer to Notes 16, 17 and 18 to the consolidated financial statements and the accounting policies in Note 3.

Key audit matter	How the matter was addressed in our audit
<p>We identified the assessment of potential impairment of certain property, plant and equipment, intangible assets and right-of-use assets as a key audit matter because the carrying value of these non-current assets is material to the consolidated financial statements and also because the impairment assessments performed by management involve certain critical judgments in respect of the assumptions made which are inherently uncertain and could be subject to management bias.</p>	<ul style="list-style-type: none">• on a sample basis, involving our internal valuation specialists to assist us in evaluating the appropriateness of the methodology adopted in the impairment assessment with reference to requirements of the prevailing accounting standards and the reasonableness of the discount rates applied in the cash flow forecasts by benchmarking against those used by companies in the same industry;• comparing the actual results for the current year with management's forecast in the previous year to assess the historical accuracy of management's forecasting process and if there is any indication of management bias;• evaluating the sensitivity analysis prepared by management for each of the key assumptions and discount rates adopted in the discounted cash flow forecast and considering the possibility of management bias; and• assessing the disclosures in the consolidated financial statements in respect of the assessment of potential impairment of certain property, plant and equipment, intangible assets and right-of-use assets with reference to the requirements of the prevailing accounting standards.

Independent Auditor's Report

INFORMATION OTHER THAN THE CONSOLIDATED FINANCIAL STATEMENTS AND AUDITOR'S REPORT THEREON

The directors are responsible for the other information. The other information comprises all the information included in the annual report, other than the consolidated financial statements and our auditor's report thereon. We obtained management discussion and analysis prior to the date of this auditor's report and expect the remaining other information to be made available to us after that date.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon as part of our engagement to audit the consolidated financial statements. We have been engaged to perform an assurance engagement on the disclosed continuing connected transactions that form part of the other information and provide a separate assurance practitioner's conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed on the other information that we obtained prior to the date of this auditor's report, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

RESPONSIBILITIES OF THE DIRECTORS FOR THE CONSOLIDATED FINANCIAL STATEMENTS

The directors are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with IFRS Accounting Standards as issued by the IASB and the disclosure requirements of the Hong Kong Companies Ordinance and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The directors are assisted by the Audit Committee in discharging their responsibilities for overseeing the Group's financial reporting process.

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. This report is made solely to you, as a body, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report.

Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Independent Auditor's Report

AUDITOR'S RESPONSIBILITIES FOR THE AUDIT OF THE CONSOLIDATED FINANCIAL STATEMENTS *(continued)*

- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the Group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence and, where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partner on the audit resulting in the independent auditor's report is Ho Ying Man Simon (practising certificate number: P04538).

Consolidated Statement of Changes in Equity

FOR THE YEAR ENDED 31 DECEMBER 2025

Notes:

- (a) According to the relevant requirement in the memorandum and articles of association of Beijing Jingneng Clean Energy Co., Limited and its subsidiaries (collectively referred to as the “Group”), a portion of their profits after taxation computed in accordance with the relevant accounting principles and financial regulations in the People’s Republic of China will be transferred to statutory surplus reserve. The transfer to this reserve must be made before the distribution of a dividend to ordinary shareholders. Such statutory surplus reserve can be used to offset the previous years’ losses, if any, or increase capital. The statutory surplus reserve is non-distributable other than upon liquidation.
- (b) Other reserves mainly represent: (i) the share of other comprehensive income of associates and a joint venture; (ii) specific reserve detailed in Notes (c) and (d).
- (c) During the year ended 31 December 2024, Beijing Jingneng Clean Energy (Hong Kong) Co., Limited (“BJCE HK”), a wholly-owned subsidiary of the Company, disposed of its 40% equity interests in Beijing Jingneng Clean Energy (Australia) Holding Pty Ltd. (“BJCE Australia”) to Beijing Energy International (Australia) Holding Pty Ltd. (北京能源國際(澳大利亞)控股有限公司) (“BEI Australia”), a fellow subsidiary of the Company, for a consideration of Australian dollars (“AU\$”) 189,559,000 (equivalent to approximately RMB918,813,000). Upon completion of the disposal on 30 September 2024, BJCE Australia remained as a subsidiary of the Company. The difference between the consideration and the net assets attributed to the interest disposed to the non- controlling shareholder, amounting to RMB405,733,000 is credited to other reserves.
- (d) Pursuant to certain regulations issued by the Ministry of Finance (財政部) and the State Administration of Work Safety (安全監管總局) of the People’s Republic of China (the “PRC”) on 21 November 2022, entities engaged in power generation are required to set up a safety fund based on certain percentage of prior year revenue for safety facilities and environment improvement, which is restricted for distribution to shareholders. Qualified safety expenditure can be transferred from safety fund to retained earnings subsequently.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 31 DECEMBER 2025

1. GENERAL INFORMATION

Beijing Jingneng Clean Energy Co., Limited (the “Company”) is a joint stock company established in the PRC with limited liability and its H shares have been listed on the Main Board of The Stock Exchange of Hong Kong Limited (the “Stock Exchange”).

The address of the Company’s registered office is Room 118, No. 1 Ziguang East Road, Badaling Economic Development Zone, Yanqing County, Beijing, the PRC. The principal place of business of the Company is No. 6 Xibahe Road, Chaoyang District, Beijing, the PRC.

In the opinion of the directors of the Company (the “Directors”), 北京能源集團有限責任公司 (Beijing Energy Holding Co., Ltd.) (“BEH”) is the Company’s ultimate holding company (and direct parent company). BEH is a company established in the PRC with limited liability and is wholly-owned by 北京國有資本運營管理有限公司 (Beijing State-owned Capital Operation Management Co., Ltd.) (“BSCOMC”) which is established and is wholly-owned by 北京市人民政府國有資產監督管理委員會 (State-owned Assets Supervision and Administration Commission of People’s Government of Beijing Municipality).

The principal businesses of the Company and its subsidiaries are wind power generation, photovoltaic power generation, gas-fired power and heat energy generation, hydropower generation and other businesses related to clean energy.

The consolidated financial statements are presented in Renminbi (“RMB”), which is also the functional currency of the Company.

2. CHANGES IN ACCOUNTING POLICIES

The Group has applied amendments to IAS 21, The effects of changes in foreign exchange rates – Lack of exchangeability issued by the International Accounting Standards Board (the “IASB”) to the financial statements for the current accounting period. The amendments do not have a material impact on the financial statements as the Group has not entered into any foreign currency transactions in which the foreign currency is not exchangeable into another currency.

The Group has not applied any new standard or interpretation that is not yet effective for the current accounting period.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 31 DECEMBER 2025

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION

3.1 Basis of preparation of consolidated financial statements

The consolidated financial statements have been prepared in accordance with IFRS Accounting Standards, which collective term includes all applicable individual IFRS Standards, International Accounting Standards and interpretations issued by the IASB. For the purpose of preparation of the consolidated financial statements, information is considered material if such information is reasonably expected to influence decisions made by primary users. In addition, the consolidated financial statements include applicable disclosures required by the Rules Governing the Listing of Securities on the Stock Exchange and by the Hong Kong Companies Ordinance.

In preparing the consolidated financial statements, the directors have given careful consideration that at 31 December 2025, the Group has net current liabilities of RMB5,485,056,000. The Group meets its working capital requirements with cash generated from its operating activities and available financing facilities from banks. At 31 December 2025, the Group has committed unutilised financing facilities granted to the Group amounting to approximately RMB48.1 billion. The directors are confident that sufficient financing facilities will continue to be available to the Group for the foreseeable period not less than 12 months from the date of the consolidated statement of financial position. Based on the assessment, the directors are satisfied that the Group will be able to meet in full its financial obligations as they fall due for the foreseeable future. Accordingly, the consolidated financial statements have been prepared on a going concern basis.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 31 DECEMBER 2025

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information

Basis of consolidation

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company and its subsidiaries. Control is achieved when the Company:

- has power over the investee;
- is exposed, or has rights, to variable returns from its involvement with the investee; and
- has the ability to use its power to affect its returns.

The Group reassesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control listed above.

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Specifically, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated statement of profit or loss and other comprehensive income from the date the Group gains control until the date when the Group ceases to control the subsidiary.

Profit or loss and each item of other comprehensive income are attributed to the owners of the Company and to the non-controlling interests. Total comprehensive income of subsidiaries is attributed to the owners of the Company and to the non-controlling interests even if this results in the non-controlling interests having a deficit balance.

When necessary, adjustments are made to the financial statements of subsidiaries to bring their accounting policies into line with the Group's accounting policies.

All intragroup assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

Non-controlling interests in subsidiaries are presented separately from the Group's equity therein, which represent present ownership interests entitling their holders to a proportionate share of net assets of the relevant subsidiaries upon liquidation.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 31 DECEMBER 2025

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION (continued)

3.2 Material accounting policy information (continued)

Changes in the Group's interests in existing subsidiaries

Changes in the Group's interests in subsidiaries that do not result in the Group losing control over the subsidiaries are accounted for as equity transactions. The carrying amounts of the Group's relevant components of equity and the non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries, including re-attribution of relevant reserves between the Group and the non-controlling interests according to the Group's and the non-controlling interests' proportionate interests.

Any difference between the amount by which the non-controlling interests are adjusted, and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

When the Group loses control of a subsidiary, the assets and liabilities of that subsidiary and non-controlling interests (if any) are derecognised. A gain or loss is recognised in profit or loss and is calculated as the difference between (i) the aggregate of the fair value of the consideration received and the fair value of any retained interest and (ii) the carrying amount of the assets (including goodwill), and liabilities of the subsidiary attributable to the owners of the Company. All amounts previously recognised in other comprehensive income in relation to that subsidiary are accounted for as if the Group had directly disposed of the related assets or liabilities of the subsidiary. The fair value of any investment retained in the former subsidiary at the date when control is lost is regarded as the fair value on initial recognition for subsequent accounting under IFRS 9 Financial Instruments ("IFRS 9") or, when applicable, the cost on initial recognition of an investment in an associate or a joint venture.

Business combinations (continued)

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net amounts of the identifiable assets acquired and liabilities assumed as at acquisition date. If, after re-assessment, the net amount of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit or loss as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the entity's net assets in the event of liquidation are initially measured at the non-controlling interests' proportionate share of the recognised amounts of the acquiree's identifiable net assets or at fair value. The choice of measurement basis is made on a transaction-by-transaction basis.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control), and the resulting gain or loss, if any, is recognised in profit or loss or other comprehensive income, as appropriate. Amounts arising from interests in the acquiree prior to the acquisition date that have previously been recognised in other comprehensive income and measured under IFRS 9 would be accounted for on the same basis as would be required if the Group had disposed directly of the previously held equity interest.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted retrospectively during the measurement period (see above), and additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognised at that date.

that date.

Goodwill

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the business (see the accounting policy above) less accumulated impairment losses, if any.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or groups of cash-generating units) that is expected to benefit from the synergies of the combination, which represent the lowest level at which the goodwill is monitored for internal management purposes and not larger than an operating segment.

A cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment annually or more frequently when there is an indication that the unit may be impaired. For goodwill arising on an acquisition in a reporting period, the cash-generating unit (or group of cash-generating units) to which goodwill has been allocated is tested for impairment before the end of that reporting period. If the recoverable amount is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit (or group of cash-generating units).

On disposal of the relevant cash-generating unit or any of the cash-generating unit within the group of cash-generating units, the attributable amount of goodwill is included in the determination of the amount of profit or loss on disposal. When the Group disposes of an operation within the cash-generating unit (or a cash-generating unit within a group of cash-generating units), the amount of goodwill disposed of is measured on the basis of the relative values of the operation (or the cash-generating unit) disposed of and the portion of the cash-generating unit (or the group of cash-generating units) retained.

The Group's policy for goodwill arising on the acquisition of an associate and a joint venture is described below.

Investments in associates and a joint venture

An associate is an entity over which the Group has significant influence. Significant influence is the power to participate in the financial and operating policy decisions of the investee but is not control or joint control over those policies.

A joint venture is a joint arrangement whereby the parties that have joint control of the arrangement have rights to the net assets of the joint arrangement. Joint control is the contractually agreed sharing of control of an arrangement, which exists only when decisions about the relevant activities require unanimous consent of the parties sharing control.

The results and assets and liabilities of associates and a joint venture are incorporated in these consolidated financial statements using the equity method of accounting. The financial statements of associates and a joint venture used for equity accounting purposes are prepared using uniform accounting policies as those of the Group for like transactions and events in similar circumstances. Under the equity method, an investment in an associate or a joint venture is initially recognised in the consolidated statement of financial position at cost and adjusted thereafter to recognise the Group's share of the profit or loss and other comprehensive income of the associate or joint venture. Changes in net assets of the associate/joint venture other than profit or loss and other comprehensive income are not accounted for unless such changes resulted in changes in ownership interest held by the Group. When the Group's share of losses of an associate or a joint venture exceeds the Group's interest in that associate or joint venture (which includes any long-term interests that, in substance, form part of the Group's net investment in the associate or joint venture), the Group discontinues recognising its share of further losses. Additional losses are recognised only to the extent that the Group has incurred legal or constructive obligations or made payments on behalf of the associate or joint venture.

An investment in an associate or a joint venture is accounted for using the equity method from the date on which the investee becomes an associate or a joint venture. On acquisition of the investment in an associate or a joint venture, any excess of the cost of the investment over the Group's share of the net fair value of the identifiable assets and liabilities of the investee is recognised as goodwill, which is included within the carrying amount of the investment. Any excess of the Group's share of the net fair value of the identifiable assets and liabilities over the cost of the investment, after reassessment, is recognised immediately in profit or loss in the period in which the investment is acquired.

Investments in associates and a joint venture (continued)

The Group assesses whether there is an objective evidence that the interest in an associate or a joint venture may be impaired. When any objective evidence exists, the entire carrying amount of the investment (including goodwill) is tested for impairment in accordance with IAS 36 Impairment of Assets as a single asset by comparing its recoverable amount (higher of value in use and fair value less costs of disposal) with its carrying amount. Any impairment loss recognised is not allocated to any asset, including goodwill, that forms part of the carrying amount of the investment. Any reversal of that impairment loss is recognised in accordance

Over time revenue recognition: measurement of progress towards complete satisfaction of a performance obligation

Output method

The progress towards complete satisfaction of a performance obligation is measured based on output method, which is to recognise revenue on the basis of direct measurements of the value of the goods or services transferred to the customer to date relative to the remaining goods or services promised under the contract, that best depict the Group's performance in transferring control of goods or services.

Existence of significant financing component

In determining the transaction price, the Group adjusts the promised amount of consideration for the effects of the time value of money if the timing of payments agreed (either explicitly or implicitly) provides the customer or the Group with a significant benefit of financing the transfer of goods or services to the customer. In those circumstances, the contract contains a significant financing component. A significant financing component may exist regardless of whether the promise of financing is explicitly stated in the contract or implied by the payment terms agreed to by the parties to the contract.

Leases

Definition of a lease

A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

For contracts entered into or modified or arising from business combinations on or after the date of initial application or arising from business combinations, the Group assesses whether a contract is or contains a lease based on the definition under IFRS 16 at inception, modification date or acquisition date, as appropriate. Such contract will not be reassessed unless the terms and conditions of the contract are subsequently changed.

Leases (continued)

The Group as a lessee

Allocation of consideration to components of a contract

For a contract that contains a lease component and one or more additional lease or non-lease components, the Group allocates the consideration in the contract to each lease component on the basis of the relative stand-alone price of the lease component and the aggregate stand-alone price of the non-lease components, including contract for acquisition of ownership interests of a property which includes both leasehold land and non-lease building components, unless such allocation cannot be made reliably.

Non-lease components are separated from lease component on the basis of their relative stand-alone prices.

Short-term leases

The Group applies the short-term lease recognition exemption to leases of the underlying assets that have a lease term of 12 months or less from the commencement date and do not contain a purchase option. Lease payments on short-term leases is recognised as expense on a straight-line basis over the lease term.

Right-of-use assets

The cost of right-of-use assets includes:

- the amount of the initial measurement of the lease liability; and
- any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs, less any lease incentives received.

Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities.

Right-of-use assets in which the Group is reasonably certain to obtain ownership of the underlying leased assets at the end of the lease term are depreciated from commencement date to the end of the useful life. Otherwise, right-of-use assets are depreciated on a straight-line basis over the shorter of its estimated useful life and the lease term.

Lease modification

Changes in considerations of lease contracts that were not part of the original terms and conditions are accounted for as lease modifications, including lease incentives provided through forgiveness or reduction of rentals.

(i) Finance leases

The Group accounts for a change in the lease payments of a finance lease as a lease modification, that is not accounted for as a separate lease, in accordance with the requirements of IFRS 9. If the change represents a substantial modification, the finance lease receivables of the original lease are derecognised and a derecognition gain or loss calculated using the revised lease payments discounted at the revised discount rate is recognised in profit or loss on the date of the modification. If the change does not represent a substantial modification, the Group continues to recognise the finance lease receivables in which such carrying amount will be calculated at the present value of the modified contractual cash flows discounted at the related receivables' original discount rate. Any adjustment to the carrying amount is recognised in profit or loss at the effective date of modification.

Foreign currencies

In preparing the financial statements of each individual group entity, transactions in currencies other than the functional currency of that entity (foreign currencies) are recognised at the rates of exchange prevailing on the dates of the transactions. At the end of each reporting period, monetary items denominated in foreign currencies are retranslated at the rates prevailing at that date. Non-monetary items carried at fair value that are denominated in foreign currencies are retranslated at the rates prevailing on the date when the fair value was determined. When a fair value gain or loss on a non-monetary item is recognised in profit or loss, any exchange component of that gain or loss is also recognised in profit or loss. When a fair value gain or loss on a non-monetary item is recognised in other comprehensive income, any exchange component of that gain or loss is also recognised in other comprehensive income. Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are recognised in profit or loss in the period in which they arise.

For the purposes of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations are translated into the presentation currency of the Group using exchange rates prevailing at the end of each reporting period. Income and expense items are translated at the average exchange rates for the period, unless exchange rates fluctuate significantly during that period, in which case the exchange prevailing rates at the dates of the transactions are used. Exchange differences arising, if any, are recognised in other comprehensive income and accumulated in equity under the heading of currency translation differences on translating foreign operations (attributed to non-controlling interests as appropriate).

Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets until such time as the assets are substantially ready for their intended use or sale.

Any specific borrowing that remains outstanding after the related asset is ready for its intended use or sale is included in the general borrowing pool for calculation of capitalisation rate on general borrowings. Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

All other borrowing costs are recognised in profit or loss in the period in which they are incurred.

Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the periods in which the Group recognises as expenses the related costs for which the grants are intended to compensate. Specifically, government grants whose primary condition is that the Group should purchase, construct or otherwise acquire non-current assets are recognised as deferred income in the consolidated statement of financial position and transferred to profit or loss on a systematic and rational basis over the useful lives of the related assets.

Government grants related to income that are receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support to the Group with no future related costs are recognised in profit or loss in the period in which they become receivable. Such grants are presented under “other income”.

The benefit of a government loan at a below-market rate of interest is treated as a government grant, measured as the difference between proceeds received and the fair value of the loan based on prevailing market interest rates.

Taxation

Income tax expense represents the sum of current and deferred income tax expense.

The tax currently payable is based on taxable profit for the year. Taxable profit differs from profit/loss before tax because of income or expense that are taxable or deductible in other years and items that are never taxable or deductible. The Group's liability for current tax is calculated using tax rates that have been enacted or substantively enacted by the end of the reporting period.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the consolidated financial statements and the corresponding tax bases used in the computation of taxable profit. Deferred tax liabilities are generally recognised for all taxable temporary differences. Deferred tax assets are generally recognised for all deductible temporary differences to the extent that it is probable that taxable profits will be available against which those deductible temporary differences can be utilised. Such deferred tax assets and liabilities are not recognised if the temporary difference arises from the initial recognition (other than in a business combination) of assets and liabilities in a transaction that affects neither the taxable profit nor the accounting profit and at the time of the transaction does not give rise to equal taxable and deductible temporary differences. In addition, deferred tax liabilities are not recognised if the temporary difference arises from the initial recognition of goodwill.

Deferred tax liabilities are recognised for taxable temporary differences associated with investments in subsidiaries and associates, and interests in a joint venture, except where the Group is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with such investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilise the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

The carrying amount of deferred tax assets is reviewed at the end of each reporting period and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION (continued)

Taxation (continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period in which the liability is settled or the asset is realised, based on tax rate and tax laws that have been enacted or substantively enacted by the end of each reporting period.

The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the Group expects, at the end of each reporting period, to recover or settle the carrying amount of its assets and liabilities.

For the purposes of measuring deferred tax for leasing transactions in which the Group recognises the right-of-use assets and the related lease liabilities, the Group first determines whether the tax deductions are attributable to the right-of-use assets or the lease liabilities.

For leasing transactions in which the tax deductions are attributable to the lease liabilities and the ultimate costs incurred for provisions for decommissioning and restoration, the Group applies IAS 12 requirements to the lease liabilities, the provisions for decommissioning and restoration and the related assets separately. The Group recognises a deferred tax asset related to lease liabilities to the extent that it is probable that taxable profit will be available against which the deductible temporary difference can be utilised and a deferred tax liability for all taxable temporary differences.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to set off current tax assets against current tax liabilities and when they relate to income taxes levied to the same taxable entity by the same taxation authority.

Current and deferred tax are recognised in profit or loss, except when they relate to items that are recognised in other comprehensive income or directly in equity, in which case, the current and deferred tax are also recognised in other comprehensive income or directly in equity respectively. Where current tax or deferred tax arises from the initial accounting for a business combination, the tax effect is included in the accounting for the business combination.

Property, plant and equipment

Property, plant and equipment are tangible assets that held for use in the production or supply of goods or services, or for administrative purposes. Other than freehold lands and properties under construction as described below, property, plant and equipment are stated in the consolidated statement of financial position at cost less subsequent accumulated depreciation and accumulated impairment losses, if any.

Freehold lands are not depreciated and are measured at cost less subsequent accumulated impairment losses.

Property, plant and equipment in the course of construction for production, supply or administrative purposes are carried at cost, less any recognised impairment loss. Costs include any costs directly attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management, including costs of testing whether the related assets is functioning properly and, for qualifying assets, borrowing costs capitalised in accordance with the Group's accounting policy. Sale proceeds of items that are produced while bringing an item of property, plant and equipment to the location and condition necessary for it to be capable of operating in the manner intended by management (such as samples produced when testing whether the asset is functioning properly), and the related costs of producing those items are recognised in the profit or loss. The cost of those items are measured in accordance with the measurement requirements of IAS 2. Depreciation of these assets, on the same basis as other property assets, commences when the assets are ready for their intended use.

Depreciation is recognised so as to write off the cost of assets (other than property, plant and equipment under construction) less their residual values over their estimated useful lives, using the straight-line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognised in profit or loss.

Intangible assets

The Group recognises an intangible asset arising from the wind farm concession arrangement when it has a right to receive the income for the usage of the concession infrastructure. Intangible assets recognised as a consideration for providing construction services in a concession arrangement are measured at fair value upon initial recognition. Subsequent to initial recognition, the intangible asset is measured at cost less accumulated amortisation and any accumulated impairment losses.

Intangible assets with finite useful lives that are acquired separately are carried at cost less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. Amortisation begins when the intangible asset is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the management. The estimated useful life and amortisation method are reviewed at the end of each reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets acquired in a business combination

Intangible assets acquired in a business combination are recognised separately from goodwill and are initially recognised at their fair value at the acquisition date (which is regarded as their cost).

Subsequent to initial recognition, intangible assets are measured at cost less accumulated amortisation and any accumulated impairment losses. Amortisation for intangible assets with finite useful lives is recognised on a straight-line basis over their estimated useful lives. Amortisation begins when the intangible asset is available for use, i.e. when it is in the location and condition necessary for it to be capable of operating in the manner intended by the management. Impairment of property, plant and equipment, right-of-use assets and intangible assets other than goodwill

At the end of each reporting period, the Group reviews the carrying amounts of its property, plant and equipment, right-of-use assets and intangible assets with finite useful lives to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the relevant asset is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of property, plant and equipment, right-of-use assets, and intangible assets are estimated individually. When it is not possible to estimate the recoverable amount individually, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

In testing a cash-generating unit for impairment, corporate assets are allocated to the relevant cash-generating unit when a reasonable and consistent basis of allocation can be established, or otherwise they are allocated to the smallest group of cash generating units for which a reasonable and consistent allocation basis can be established. The recoverable amount is determined for the cash-generating unit or group of cash-generating units to which the corporate asset belongs, and is compared with the carrying amount of the relevant cash-generating unit or group of cash-generating units.

Recoverable amount is the higher of fair value less costs of disposal and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the assets (or a cash-generating unit) for which the estimated future cash flows have not been adjusted.

Impairment of property, plant and equipment, right-of-use assets and intangible assets other than goodwill (continued)

If the recoverable amount of an asset (or a cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (or the cash-generating unit) is reduced to its recoverable amount. For corporate assets or portion of corporate assets which cannot be allocated on a reasonable and consistent basis to a cash-generating unit, the Group compares the carrying amount of a group of cash-generating units, including the carrying amounts of the corporate assets or portion of corporate assets allocated to that group of cash-generating units, with the recoverable amount of the group of cash-generating units. In allocating the impairment loss, the impairment loss is allocated first to reduce the carrying amount of any goodwill (if applicable) and then to the other assets on a pro-rata basis based on the carrying amount of each asset in the unit or the group of cash-generating units. The carrying amount of an asset is not reduced below the highest of its fair value less costs of disposal (if measurable), its value in use (if determinable) and zero. The amount of the impairment loss that would otherwise have been allocated to the asset is allocated pro rata to the other assets of the unit or the group of cash-generating units. An impairment loss is recognised immediately in profit or loss.

Where an impairment loss subsequently reverses, the carrying amount of the asset (or cash-generating unit or a group of cash-generating units) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (or cash-generating unit or a group of cash-generating units) in prior years. A reversal of an impairment loss is recognised immediately in profit or loss.

Cash and cash equivalents

Cash and cash equivalents presented on the consolidated statement of financial position include:

- (a) cash, which comprises of cash on hand and demand deposits, excluding bank balances that are subject to regulatory restrictions that result in such balances no longer meeting the definition of cash; and
- (b) cash equivalents, which comprises of short-term (generally with original maturity of three months or less), highly liquid investments that are readily convertible to a known amount of cash and which are subject to an insignificant risk of changes in value. Cash equivalents are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

For the purposes of the consolidated statement of cash flows, cash and cash equivalents consist of cash and cash equivalents as defined above.

Financial instruments

Financial assets and financial liabilities are recognised when a group entity becomes a party to the contractual provisions of the instrument. All regular way purchases or sales of financial assets are recognised and derecognised on a trade date basis. Regular way purchases or sales are purchases or sales of financial assets that require delivery of assets within the time frame established by regulation or convention in the market place.

Financial assets and financial liabilities are initially measured at fair value except for trade receivables without a significant financing component which is measured at transaction price as defined in IFRS 15. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets or financial liabilities at fair value through profit or loss ("FVTPL")) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at FVTPL are recognised immediately in profit or loss.

A financial asset is held for trading if:

- it has been acquired principally for the purpose of selling in the near term; or
- on initial recognition it is a part of a portfolio of identified financial instruments that the Group manages together and has a recent actual pattern of short-term profit-taking; or

The cumulative gain or loss will not be reclassified to profit or loss on disposal of the equity investments, and will be transferred to retained profits.

Dividends from these investments in equity instruments are recognised in profit or loss when the Group's right to receive the dividends is established, unless the dividends clearly represent a recovery of part of the cost of the investment. Dividends are included in the "other income" line item in profit or loss.

(iii) Financial assets at FVTPL

Financial assets that do not meet the criteria for being measured at amortised cost or FVTOCI or designated as FVTOCI are measured at FVTPL.

Financial assets at FVTPL are measured at fair value at the end of each reporting period, with any fair value gains or losses recognised in profit or loss. (i) Significant increase in credit risk (continued)

In particular, the following information is taken into account when assessing whether credit risk has increased significantly:

- an actual or expected significant deterioration in the financial instrument's external (if available) or internal credit rating;
- significant deterioration in external market indicators of credit risk, e.g. a significant increase in the credit spread, the credit default swap prices for the debtor;
- existing or forecast adverse changes in business, financial or economic conditions that are expected to cause a significant decrease in the debtor's ability to meet its debt obligations;
- an actual or expected significant deterioration in the operating results of the debtor;
- an actual or expected significant adverse change in the regulatory, economic, or technological environment of the debtor that results in a significant decrease in the debtor's ability to meet its debt obligations.

Irrespective of the outcome of the above assessment, the Group presumes that the credit risk has increased significantly since initial recognition when contractual payments are more than 30 days past due, unless the Group has reasonable and supportable information that demonstrates otherwise.

The Group regularly monitors the effectiveness of the criteria used to identify whether there has been a significant increase in credit risk and revises them as appropriate to ensure that the criteria are capable of identifying significant increase in credit risk before the amount becomes past due.

(ii) Definition of default

For internal credit risk management, the Group considers an event of default occurs when information developed internally or obtained from external sources indicates that the debtor is unlikely to pay its creditors, including the Group, in full (without taking into account any collaterals held by the Group).

Irrespective of the above, the Group considers that default has occurred when a financial asset is more than 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

(iii) Credit-impaired financial assets

A financial asset is credit-impaired when one or more events of default that have a detrimental impact on the estimated future cash flows of that financial asset have occurred. Evidence that a financial asset is credit-impaired includes observable data about the following events:

- (a) significant financial difficulty of the issuer or the borrower;
- (b) a breach of contract, such as a default or past due event;
- (c) the lender(s) of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession(s) that the lender(s) would not otherwise consider;
- (d) it is becoming probable that the borrower will enter bankruptcy or other financial reorganisation; or
- (e) the disappearance of an active market for that financial asset because of financial difficulties.

(iv) Write-off policy

The Group writes off a financial asset when there is information indicating that the counterparty is in severe financial difficulty and there is no realistic prospect of recovery, for example, when the counterparty has been placed under liquidation or has entered into bankruptcy proceedings. Financial assets written off may still be subject to enforcement activities under the Group's recovery procedures, taking into account legal advice where appropriate. A write-off constitutes a derecognition event. Any subsequent recoveries are recognised in profit or loss.

(v) Measurement and recognition of ECL

ECLs are a probability-weighted estimate of credit losses. Generally, credit losses are measured as the present value of all expected cash shortfalls between the contractual and expected amounts, discounted at the original effective interest rate.

ECLs are remeasured at each reporting date to reflect changes in the financial instrument's credit risk since initial recognition. Any change in the ECL amount is recognised as an impairment gain or loss in profit or loss. The Group recognises an impairment gain or loss for all financial instruments with a corresponding adjustment to their carrying amount through a loss allowance account, except for investments in non-equity securities that are measured at FVTOCI, for which the loss allowance is recognised in OCI and accumulated in the fair value reserve does not reduce the carrying amount of the financial asset in the statement of financial position.

Derecognition/modification of financial assets

The Group derecognises a financial asset only when the contractual rights to the cash flows from the asset expire, or when it transfers the financial asset and substantially all the risks and rewards of ownership of the asset to another entity. If the Group neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Group recognises its retained interest in the asset and an associated liability for amounts it may have to pay. If the Group retains substantially all the risks and rewards of ownership of a transferred financial asset, the Group continues to recognise the financial asset and also recognises a collateralised borrowing for the proceeds received.

On derecognition of a financial asset, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in profit or loss.

On derecognition of an investment in equity instrument which the Group has elected on initial recognition to measure at FVTOCL, the cumulative gain or loss previously accumulated in the FVTOCI reserve is not reclassified to profit or loss, but is transferred to retained earnings.

Financial liabilities and equity

Classification as debt or equity

Financial instruments issued are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a

Financial instruments (continued)

Financial liabilities and equity (continued)

Financial liabilities at amortised cost

Financial liabilities including trade and other payables, amounts due to related parties, bank and other borrowings, medium-term notes, corporate bonds and short-term debentures are subsequently measured at amortised cost, using the effective interest method.

Derecognition of financial liabilities

The Group derecognised financial liabilities when, and only when, the Group's obligations are discharged, cancelled or have expired. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in profit or loss.

Derivative financial instruments

Derivatives are initially recognised at fair value at the date when derivative contracts are entered into and are subsequently remeasured to their fair value at the end of the reporting period. The resulting gain or loss is recognised in profit or loss unless the derivative is designated and effective as a hedging instrument, in which event the timing of the recognition in profit or loss depends on the nature of the hedge relationship.

A derivative is presented as a non-current asset or a non-current liability if the remaining maturity of the instrument is more than 12 months and it is not due to be realised or settled within 12 months. Other derivatives are presented as current assets or current liabilities.

Hedge accounting

The Group designates certain derivatives as hedging instruments for cash flow hedges.

At the inception of the hedging relationship the Group documents the relationship between the hedging instrument and the hedged item, along with its risk management objectives and its strategy for undertaking various hedge transactions. Furthermore, at the inception of the hedge and on an ongoing basis, the Group will assess whether the hedging relationship meets the hedge effectiveness requirements.

3. BASIS OF PREPARATION OF CONSOLIDATED FINANCIAL STATEMENTS AND MATERIAL ACCOUNTING POLICY INFORMATION *(continued)*

3.2 Material accounting policy information *(continued)*

Financial instruments (continued)

Hedge accounting (continued)

Assessment of hedging relationship and effectiveness

For hedge effectiveness assessment, the Group determines whether a hedging relationship meets all of the following requirements:

- there is an economic relationship between the hedged item and the hedging instrument;
- the effect of credit risk does not dominate the value changes that result from that economic relationship; and
- the hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Group actually hedges and the quantity of the hedging instrument that the entity actually uses to hedge that quantity of hedged item.

Cash flow hedges

The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised in other comprehensive income and accumulated under the heading of cash flow hedging reserve. The gain or loss relating to the ineffective portion is recognised immediately in profit or loss, and is included in the 'other gains and losses' line item.

Amounts previously recognised in other comprehensive income and accumulated in equity (cash flow hedging reserve) are reclassified to profit or loss in the periods when the hedged item affects profit or loss, in the same line as the recognised hedged item. Furthermore, if the Group expects that some or all of the loss accumulated in the cash flow hedging reserve will not be recovered in the future, that amount is immediately reclassified to profit or loss.

Hedge accounting (continued)

Discontinuation of hedge accounting

The Group discontinues hedge accounting prospectively only when the hedging relationship (or a part thereof) ceases to meet the qualifying criteria (after rebalancing, if applicable). This includes instances when the hedging instrument expires or is sold, terminated or exercised. Discontinuing hedge accounting can either affect a hedging relationship in its entirety or only a part of it (in which case hedge accounting continues for the remainder of the hedging relationship).

For cash flow hedge, any gain or loss recognised in other comprehensive income and accumulated in equity until the future cash flows occur. When the hedged forecast transaction is no longer expected to occur, the gain or loss accumulated in equity is recognised immediately in profit or loss.

4. KEY SOURCES OF ESTIMATION UNCERTAINTY

In the application of the Group's accounting policies, which are described in Note 3, the directors are required to make judgements, estimates and assumptions about the carrying amounts of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, which may have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 31 DECEMBER 2025

4. KEY SOURCES OF ESTIMATION UNCERTAINTY (*continued*)

Useful lives of property, plant and equipment

The Group's management determines the useful lives and related depreciation expenses for its property, plant and equipment, after taking into account of the estimated residual value. This estimate is based on historical experience on the projected wear and tear incurred during power generation. It might change significantly as a result of technical innovations.

The depreciation expense for future periods would be adjusted if there are significant changes from previous estimates.

Useful lives of concession rights and operation rights

The Group's management determines the useful lives and related amortisation expenses for its wind farm concession rights and wind or hydropower operation rights. This estimate is based on corresponding legal or contractual arrangements, projected profitability, and current legal and economic environment. It might be significantly affected by factors that include but not limited to the changes in the legal and regulatory framework, economic environment, technical innovation, etc. The amortisation expense for future periods would be adjusted if there are significant changes from previous estimates.

Impairment of trade receivables

The Group assesses impairment of trade receivables based on the Group's historical credit loss experience, adjusted for factors that are specific to the debtors, general economic conditions and assessment of both the current as well as the forecast direction of conditions at the end of the reporting period.

The provision of ECL is sensitive to changes in estimates. The information about the ECL and the Group's trade receivables are disclosed in Note 48.

Impairment of property, plant and equipment, intangible assets and right-of-use assets ("non-current assets")

In considering the impairment losses that may be required for certain of the Group's non-current assets, the recoverable amounts of these assets need to be determined. The recoverable amount is the higher of its fair value less costs of disposal and its value in use. It is difficult to precisely estimate the fair value because quoted market prices for these assets may not be readily available. In determining the value in use, the Group uses all readily available information in determining expected cash flows generated by the cash-generating unit to which the asset belongs, and they are discounted to their present value, which requires significant judgement relating to cash flow items such as future sales volumes and on-grid tariffs.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 31 DECEMBER 2025

4. KEY SOURCES OF ESTIMATION UNCERTAINTY (*continued*)

Revenue recognition on clean energy power price premium

Clean energy power price premium represents the electricity price subsidy receivable from the relevant authorities in respect of the Group's power generation business. If there is reasonable assurance that the electricity price subsidy will be received and the Group will comply with all attached conditions (if any), then the clean energy power price premium will be recognised at the applicable clean energy power price premium and the grid connected electricity quantity.

According to the Notice of the National Development and Reform Commission of the People's Republic of China on Adjusting the Grid in Electricity Prices of Land Wind Power Benchmarks for Photovoltaic Power Generation (FGJG [2016] No. 2729) (hereinafter referred to as the "Electricity Price Notice") issued in 2016, power plants that have obtained construction approval and are connected to the grid for power generation within the specified period will be eligible to enjoy the corresponding on-grid electricity prices of photovoltaic power generation and land wind power benchmark in their resource areas. The difference between the onshore wind power or photovoltaic power generation benchmark grid electricity price and the local coal-fired unit benchmark grid electricity price is the clean energy power price premium, which is subsidized through the National Renewable Energy Development Fund.

According to the "Several Opinions of the Ministry of Finance, National Development and Reform Commission, and National Energy Administration on Promoting the Healthy Development of Non aqueous Renewable Energy Power Generation" (Caijian [2020] No. 4), the state will no longer issue a list of additional subsidies for renewable energy electricity prices, instead the power grid companies determine and regularly publish a list of eligible renewable energy power generation subsidy projects (hereinafter referred to as the "subsidy list"). According to the Notice on Conducting the Review of the List of Subsidy Projects for Renewable Energy Generation (Cai Ban Jian [2020] No. 6), renewable energy generation projects that meet the conditions can apply to power grid companies and be included in the subsidy list after being reviewed and approved by power grid companies, provincial energy regulatory departments, and the National Renewable Energy Information Management Center.

The Group applies judgment in determining whether the conditions for grid electricity to enjoy electricity price subsidy have been met for those energy power generation projects of the Group that have not been included in the subsidy list.

6. SEGMENT INFORMATION

The Group manages its businesses by divisions, such as performing the monthly revenue analysis by segments which are organised by types of business. Information is reported internally to the Group's chief operating decision maker ("CODM"), including general manager, deputy general managers and financial controller, for the purposes of resource allocation and performance assessment. The Group has presented the following operating and reportable segments:

- Gas-fired power and heat energy generation: constructing, managing and operating natural gas-fired power plants and generating electric power and heat energy for sale to external customers.
- Wind power: constructing, managing and operating wind power plants and sales of electricity generated to external customers.
- Photovoltaic power: constructing, managing and operating photovoltaic power plants and sales of electricity generated to external customers.
- Hydropower: managing and operating hydropower plants and sales of electricity generated to external customers.

Operating segments of business activities other than "Gas-fired power and heat energy generation", "Wind power", "Photovoltaic power" and "Hydropower" did not meet the quantitative thresholds for reportable segments in both current and prior year. Accordingly, these are grouped and presented as "Others" in the segment information.

(c) Geographical information

Over 90% of the Group's revenue is generated from customers in the PRC for both years, and over 90% of the Group's non-current assets (not including deferred tax assets and financial assets) are located in the PRC as at 31 December 2025 and 2024. Therefore no geographical segment information is presented.

(d) Information about major customers

Revenue of approximately RMB16,329,557,000 for the year ended 31 December 2025 (2024: RMB16,982,524,000) were derived from an external party, the State Grid Corporation of China, which contributed 78% (2024: 83%) to the total revenue.

Revenue from customers of the corresponding years contributing over 10% of the total sales of the Group are as follows:

PRC Enterprise Income Tax has been generally provided at the applicable Enterprise Income Tax rate of 25% (2024: 25%) on the estimated assessable profits of the group entities established in the PRC for the year ended 31 December 2025.

Under the PRC Enterprise Income Tax law, the preferential tax treatment for encouraged enterprises located in the Western China and certain industry-oriented tax incentives remain available up to 31 December 2030 when the original preferential tax period expired. Under the enterprise income tax law, the enterprises in encouraged industries in Western China are eligible for a preferential enterprise income tax rate for the period from 1 January 2021 to 31 December 2030. A PRC enterprise which enjoys this tax treatment is entitled to a preferential tax rate of 15%, and may also begin to enjoy the “three-year tax exemption followed by three years of 50% tax reduction” corporate income tax incentive in China starting from the first year in which taxable income is generated from the relevant projects. Certain wind power plant projects and photovoltaic power generation projects of the Group are eligible for this tax incentive for the years ended 31 December 2025 and 2024.

No provision for Hong Kong Profit Tax has been made as the Group has no assessable profit derived in Hong Kong for both years.

Australian income tax is calculated at 30% (2024: 30%) on the estimated assessable profit.

- | | |
|-------------------|------------|
| Concession rights | 4% to 5% |
| Operation rights | 2% to 10% |
| Software | 10% to 50% |
- (ii) The Group provides construction services to build up the wind power facilities and generates electricity under the concession rights. The Group recognises the concession rights as intangible assets according to the fair value of the construction services on related assets. These concession rights are amortised according to the respective beneficial periods.
- (iii) Operation rights with finite useful lives represent governmental permits or contractual arrangements which grant the operators to construct and operate power facilities. Those operation rights are obtained through business acquisition and amortised on straight-line basis according to the estimated beneficial periods of such facilities.

Goodwill of the Group arises from the acquisition of 四川大川電力有限公司 (Sichuan Dachuan Power Co., Ltd., English name for identification purpose) (“Sichuan Dachuan”), Sichuan Zhongneng and New Gullen Range Wind Farm (Holding) Pty Ltd. (“New GRWF Holding”).

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 31 DECEMBER 2025

20. IMPAIRMENT TESTING ON NON-CURRENT ASSETS

For the purposes of impairment testing, goodwill set out in Note 19 has been allocated into two CGUs: (i) New GRWF Holding in the wind power segment (“Wind Power CGU”); and (ii) one comprising two subsidiaries in the hydropower segment, namely, Sichuan Dachuan and Sichuan Zhongneng (“Hydropower CGU”).

(i) Impairment test on goodwill in Wind Power segment

During the years ended 31 December 2025 and 2024, the management of the Group determines that there is no impairment of goodwill contained in the Wind Power CGU.

The basis of the recoverable amount of the Wind Power CGU and their major underlying assumptions are summarised below:

The recoverable amounts of the unit have been determined based on a value in use calculation. That calculation uses cash flow projections based on financial budgets approved by the management covering a five-year period, and pre-tax discount rate of 9.79% for Wind Power CGU (2024: 9.40%). The Wind Power CGU's cash flows beyond the five-year period are extrapolated using a 2.50% (2024: 2.50%) growth rate. This growth rate is based on the relevant industry growth forecasts and do not exceed the average long-term growth rate for the relevant industry. Other key assumptions for the value in use calculations relate to the estimation of cash flows which include forecast sales volumes and on-grid tariffs, such estimation is based on the Wind Power CGU's past performance and management's expectations for the market development.

The management believes that any reasonably possible change in any of these assumptions would not cause the aggregate carrying amount of the Wind Power CGU to exceed the aggregate recoverable amount of the Wind Power CGU. As at 31 December 2025, the recoverable amount is RMB1,283,752,000, exceeding the carrying amount of RMB788,632,000.

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 31 DECEMBER 2025

20. IMPAIRMENT TESTING ON NON-CURRENT ASSETS *(continued)*

(ii) Impairment test on goodwill and intangible assets in Hydropower segment

In October 2024, four generators of Sichuan Dachuan were stopped from power generation pursuant to the notice from local government. Accordingly, the management performed impairment assessment for the underlying operation rights related to the above four generators by determining the recoverable amounts of the Hydropower CGU to which these operation rights belong. Based on the result of the assessment, management of the Group determined that the recoverable amount of the CGU is lower than the carrying amount. Impairment loss for operation rights (recognised as intangible assets) directly related to Hydropower CGU amounting to RMB403,363,000 were recognised based on impairment tests and the carrying amount of these operation rights included in intangible assets is RMB370,796,000, net of impairment losses recognised during the year ended 31 December 2024. The impairment loss of operation rights had been included in profit or loss in the other gains and losses line item (Note 9).

(iii) Impairment test on certain property, plant and equipment

As of 31 December 2025, the Group identified certain property, plant and equipment with impairment indicators and performed impairment assessments on these assets by comparing the carrying amount of the cash-generating units to which these non-current assets belong with their recoverable amounts. The recoverable amounts of each cash generating unit has been determined based on a value in use calculation. That calculation uses cash flows projections based on forecast sales volumes and on-grid tariffs and pre-tax discount rate ranging from 8.39% to 9.11%. No impairment was provided after the assessment on these property, plant and equipment for the year ended 31 December 2025. The Group performed a sensitivity analysis on key assumptions used in annual impairment test of goodwill. 	2025 <i>RMB'000</i>	2024 <i>RMB'000</i>
Unlisted equity investments	120,800	106,000

The above unlisted equity investments represent the Group's equity interests in unlisted equity securities issued by state-owned entities established in the PRC. The directors have elected to designate these investments in equity instruments as at FVTOCI as they believe that recognising short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the Group's strategy of holding these investments for long-term purposes and realizing their performance potential in the long run.

25. INVENTORIES

Inventories as at 31 December 2025 mainly represent consumable spare parts used for maintenance. During the year ended 31 December 2025, the cost of inventories recognised as expense was RMB290,690,000 (2024: RMB260,748,000).

	12,291,500	14,016,906

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 31 DECEMBER 2025

26. TRADE AND BILLS RECEIVABLES (*continued*)

The Group's major customers are the PRC state-owned power grid companies with good credit rating.

The clean energy power price premium is included as a component of the government-approved on-grid tariff of wind power and photovoltaic power. As at 31 December 2025, most of the operating projects have been approved for the tariff premium and certain projects are in the process of applying for the approval. The directors are of the opinion that the approvals will be obtained in due course and the tariff premium receivables are fully recoverable considering that the tariff premium is funded by the PRC government.

The Group applies the simplified approach to measure loss allowance for trade receivables, i.e. the loss allowance is always measured on a lifetime basis. To measure the expected credit loss of trade receivables excluding tariff premium receivables, trade receivables have been grouped based on shared credit risk characteristics and the ageing.

As at 31 December 2025, included in the Group's trade receivables balance for goods and services are debtors with aggregate carrying amount of RMB198,111,000 (2024: RMB187,704,000) which are past due as at the reporting date.

At 31 December 2025, trade receivables amounting to RMB2,276,526,000 (2024: RMB2,897,713,000) are pledged for bank borrowings set out in Notes 34(e) and 44.

Bills receivable are mainly bank's acceptance bills endorsed by the PRC state-owned power grid companies.

During the year ended 31 December 2025, trade receivables amounted to RMB3,055,058,000 (2024: RMB1,610,136,000) had been factored or transferred through asset-backed securities to independent third parties without recourse. In the opinion of the directors, the Group had derecognised these trade receivables, the Group has transferred substantially all the risks and rewards of ownership of these trade receivables to the counterparties. All related proceeds were received in 2025 and related losses recognised from the transfer activities amounted to RMB25,298,000 (2024: RMB110,136,000) was recognised in other gains and losses.

Details of impairment assessment of trade and bills receivables are set out in Note 48(b).

27. FINANCE LEASE RECEIVABLES *(continued)*

Receivables for finance lease services arose from finance lease contracts to lease plant and machinery to customers and were recognised to the extent that the Group has the right to collect rental income from customers. Interest rates implicit in the above finance leases range from 2.40% to 3.97% (2024: 2.64% to 5.22%).

Finance lease receivables are secured over the plant and machinery leased. The Group is not permitted to sell or repledge the collateral in the absence of default by the lessee.

Details of impairment assessment are set out in Note 48(b).

According to the agreements between 北京上莊燃氣熱電有限公司 (Beijing Shangzhuang Gas-fired Power Co., Ltd., English name for identification purpose) ("Shangzhuang Power"), a subsidiary of the Company, the Company and CAD Fund, the loans were provided by CAD Fund as capital injection to Shangzhuang Power ("Designated Capital Loan"). Upon receipt of the Designated Capital Loan, the Group and CAD Fund held 78.22% and 21.78% (2024: 60.03% and 39.97%) interests in Shangzhuang Power, respectively.

In the opinion of the directors, the Designated Capital Loan is designated by certain government institutions to finance the construction of the gas-fired plant owned by Shangzhuang Power; and the relevant investment agreement required: (i) the Company is obliged to repurchased all shares of Shangzhuang Power issued to CAD Fund with a cash consideration of RMB110,000,000 on 19 November 2025, RMB100,000,000 on 2 March 2026, and RMB100,000,000 on 6 June 2026; (ii) CAD Fund does not have any influence over Shangzhuang Power or undertake any risk of investment, but only entitled to a fixed interest rate at 1.2% per annum which should be paid quarterly during the ten years of investment period. In the opinion of the directors, the arrangement is in substance a financing arrangement from the government. The Group classified the above Designated Capital Loan as a financial liability, and continues to consolidate all results as if Shangzhuang power is a wholly-owned subsidiary of the Company.

As at 31 December 2025, the Designated Capital Loan balance is RMB198,581,000 which is measured at amortised cost using the effective interest method.

Notes:

- (a) The Group's gas power facilities located in Beijing, the PRC, were entitled to a subsidy policy promulgated by the Beijing Government. The Group recognises deferred income when the Group receives the relevant government subsidies. The deferred income would be released to profit or loss based on the actual volume of electricity generated from and sold by the Group's related gas and wind power facilities and at the pre-determined subsidizing rate.
- (b) Grants related to construction of assets are provided by several local governments in the PRC to encourage the construction of clean energy facilities. The Group records these grants as deferred income upon receipt of the grants and releases to profit or loss to match with the depreciation charge of related assets. The amounts of RMB21,052,000 (2024: RMB60,887,000) released to profit or loss are set out in Note 7.
- (c) Amount of RMB89,000,000 included in grants related to construction of assets is a benefit derived from a government Designated Capital Loan (Note 34(c)). During the year, the amount released to profit or loss is RMB9,606,000 (2024: RMB10,321,000).

42. PERPETUAL NOTES *(continued)*

(e) Issued on 26 June 2025

The Company issued perpetual medium-term notes at par value on 27 June 2025, with a total principal amount of RMB1,000,000,000 (“Perpetual Notes 5”). The proceeds from the issuance of the Perpetual Notes after netting off the issuance cost are RMB999,900,000.

The coupon rate for the first three years up to 27 June 2028 is 1.98% per annum, which is paid annually in arrears on 27 June in each year (“Coupon Payment Date 5”). The Company may defer any interest at its own discretion unless compulsory coupon payment events (including distributions to ordinary shareholders of the Company or reduction of the registered capital of the Company) has occurred. The deferred interest is interest bearing at the current coupon rate during the interest deferral period.

The Perpetual Notes 5 have no fixed maturity and are callable at the Company’s option, on 27 June 2028 or on any Coupon Payment Date afterwards, at their principal amounts together with any interest payable (including all unpaid and deferred coupon interest payments).

After 27 June 2028, the coupon rate will be reset every three years to a percentage per annum equal to the sum (i) of the initial spreads of difference between nominal interest rate and initial benchmark interest rate, (ii) current period benchmark interest rate, and (iii) a margin of 300 base points. While any coupon interest payments are unpaid or deferred, the Group cannot declare or pay dividends (except for handing in the state-owned capital proceeds required by relevant regulations of state-owned assets management) or reduce its registered capital.

Pursuant to the terms of these perpetual notes, the Company has no contractual obligation to repay its principal or to pay any coupon and deferred interest unless compulsory coupon payment event has occurred (which are considered within control of the Company). Accordingly, the perpetual notes are classified as equity and subsequent coupon payment will be recorded as equity distribution to the owners of the Company.

During the year ended 31 December 2025, the profit attributable to holders of the perpetual notes, based on the applicable coupon rate, was approximately RMB74,264,000 (2024: RMB97,548,000) and the coupon payment distributed to the holders of the perpetual notes was approximately RMB86,400,000 (2024: RMB96,400,000).

45. RETIREMENT BENEFIT SCHEME CONTRIBUTIONS AND CASH-SETTLED SHARE-BASED PAYMENTS

(a) Retirement benefit scheme contributions

During the year ended 31 December 2025, total amount of RMB130,156,000 (2024: RMB122,402,000) including retirement benefit cost of directors of RMB204,000 (2024: RMB209,000) was recognised in profit or loss as retirement benefit scheme contributions.

The Group participates in retirement benefit schemes organised by the local government authorities in the PRC. The local government authorities in the PRC are responsible for managing the pension liabilities to the retired employees. For the pension liabilities to these retired employees, the Group's obligation is only to make monthly contributions at 16% (2024: 16%) of salary for the year ended 31 December 2025.

During the years ended 31 December 2025 and 2024, the Group had no forfeited contributions under the scheme which may be used by the Group to reduce the existing level of contributions. There were also no forfeited contributions available at 31 December 2025 and 2024 under the scheme which may be used by the Group to reduce the contribution payable in future years.

(b) Cash-settled share-based payments

Pursuant to a shareholder resolution passed on 2 February 2024, the Company issued to certain employees share appreciation rights (the SARs) that require the Company to pay the intrinsic value of the SARs to the employees at the date of exercise. The SARs are to be settled by cash. The SARs schema does not involve the grant of options over the existing shares, new shares or other new securities issuable by the Company. The total number of SARs approved under the Scheme is 123,675,000 and the Company has granted 123,591,000 SARs in 2024 in three installments to employees that entitle them to a cash payment after two years of service since the date of granted if the company and the incentive recipients achieve the predetermined performance conditions, representing approximately 1.5% of the total issued share capital of the Company as at 31 December 2024. The remaining 84,000 SARs under the Scheme not yet been granted were cancelled on 31 October 2024. At 31 December 2025, the Group has recorded liabilities of approximately RMB42,943,000. The fair value of the SARs is determined using the Black-Scholes pricing model. The Group recorded total expenses of approximately RMB31,709,000 (2024: RMB11,234,000) during the year in respect of the SARs.

Key management represents the directors and other senior management personnel disclosed in the annual report. The remuneration of key management is determined by the remuneration committee having regard to the performance of individuals and market trends.

- (f) In addition, the Group also has entered into other various transactions with other government-related entities in its ordinary course of business. In view of the insignificance of these transactions, the directors are of the opinion that separate disclosure is not meaningful.

47. CAPITAL RISK MANAGEMENT

The Group manages its capital to ensure that entities in the Group will be able to continue as a going concern while maximising the return to shareholders through the optimisation of the debt and equity balance. The Group's overall strategy remains unchanged from prior year.

The capital structure of the Group consists of net debts (which include bank and other borrowings, short-term debentures, medium-term notes, corporate bonds, net of cash and cash equivalents, and restricted bank deposits), and equity attributable to ordinary shareholders of the Company, comprising issued share capital, retained profits and other reserves.

The directors review the capital structure on a regular basis. As part of this review, the directors consider the cost of capital and the risks associated with capital, and take appropriate actions to balance its overall capital structure.

The Group monitors capital using a gearing ratio which is total liabilities divided by total assets. The Group aims to maintain the gearing ratio at a reasonable level. The Group's gearing ratio as at 31 December 2025 was 62.2% (2024: 62.9%).

(b) Financial risk management objectives and policies

The Group's major financial instruments include derivative financial assets, trade and bills receivables, other receivables and deposits, equity instrument at FVTOCI, financial asset at FVTPL, loans to an associate and a joint venture, finance lease receivables, cash and cash equivalents, restricted bank deposits, trade and other payables, amounts due from/to related parties, bank and other borrowings, short-term debentures, medium-term notes, corporate bonds and derivative financial liability. Details of these financial instruments are disclosed in respective notes. The risks associated with these financial instruments and the policies on how to mitigate these risks are set out below. The management manages and monitors these exposures to ensure appropriate measures are implemented on a timely and effective manner.

Market risk

The Group's activities expose primarily to the market risks of changes in interest rates, foreign currency exchange rates and other price risk.

There has been no significant change to the Group's exposure to market risks or the manner in which it manages and measures the risk during the year ended 31 December 2025.

48. FINANCIAL INSTRUMENTS (*continued*)

(b) Financial risk management objectives and policies (*continued*)

Market risk (continued)

(i) *Interest rate risk management*

The Group is exposed to cash flow interest rate risk due to the fluctuation of the prevailing market interest rate on loans to an associate and a joint venture, cash and cash equivalents, restricted bank deposits and bank and other borrowings carried at variable interest rate and lease liabilities. The floating interest rates which the Group is subject to are based on interest rates quoted by the PBOC plus a premium or less a discount.

The Group's fair value interest rate risk mainly included bank and other borrowings carried at fixed interest rate, short-term debentures, medium-term notes, corporate bonds and lease liabilities.

The Group's exposures to interest rates on financial liabilities are detailed in the liquidity risk management section of this note.

Interest rate sensitivity

The sensitivity analyses below have been determined based on the exposure to interest rates for financial instruments at the end of each reporting period. For those financial instruments bearing floating interest rate, the analyses are prepared assuming the amount of balances outstanding at the end of each reporting period was outstanding for the whole year. A 25 basis points increase or decrease is used when reporting interest rate risk internally to key management personnel and represents management's assessment of the reasonably possible change in interest rates.

If PBOC interest rates had been 25 basis points higher/lower and all other variables were held constant, the Group's profit for the year ended 31 December 2025 would decrease/increase by RMB64,767,000 (2024: RMB39,818,000).

(ii) Foreign currency risk management

Currency risk

The Group has certain assets and liabilities, including cash and cash equivalents (Note 32), bank and other borrowings (Note 34) denominated in foreign currencies, hence risk exposure to exchange rate fluctuation arises.

The Group are not exposed to significant foreign currency exchange risk as their transactions of operation and balances are substantially denominated in their respective functional currencies.

Currency sensitivity

The Group is mainly exposed to exchange rate fluctuation on RMB, HK\$, US\$ and AU\$, because bank balances and borrowings of an Australia subsidiary were mainly denominated in RMB, and bank balances of the Group's subsidiaries in the PRC were denominated in HK\$, US\$ and AU\$. The carrying amounts of the Group's foreign currency denominated monetary assets and monetary liabilities at the end of the reporting period are as follows:

	Liabilities		Assets	
	2025 RMB'000	2024 RMB'000	2025 RMB'000	2024 RMB'000
RMB	810,520	–	34,627	–
HK\$	–	–	1,875	754
US\$	–	–	8,929	5,851
AU\$	–	–	1,956	284,596

(ii) *Foreign currency risk management (continued)*

Currency sensitivity (continued)

For the sensitivity analysis, 5% is the sensitivity rate used when reporting foreign currency risk internally to key management personnel and represents management's assessment of the reasonably possible change in the exchange rate of RMB against HK\$, US\$ and AU\$.

For the Australian subsidiaries, a 5% weakening/strengthening of AU\$ against RMB would result in a decrease/increase in profit or loss of RMB 26,923,000 (2024: nil).

For the Group's subsidiaries in the PRC, the following table details the sensitivity to a 5% strengthening of RMB against HK\$, US\$ and AU\$. For a 5% weakening of RMB against HK\$, US\$ and AU\$, there would be an equal and opposite impact on the profit after taxation for the year:

	2025 RMB'000	2024 RMB'000
Decrease in profit (HK\$)	(70)	(30)
Decrease in profit (US\$)	(335)	(234)
Decrease in profit (AU\$)	(73)	(11,374)

(b) Financial risk management objectives and policies *(continued)*

Market risk (continued)

(iii) Other price risks

The Group is exposed to equity price risk mainly through its investment in equity securities. The Group's equity price risk arises from its investment in the equity securities of a listed entity operating in the nuclear power industry and an unlisted entity. The Group has appointed a special team to monitor the price risk and will consider hedging the risk exposure should the need arise.

Equity price sensitivity analysis

The sensitivity analysis below has been determined based on the exposure to equity price risk at the end of the reporting period.

If equity prices had been 15% higher/lower:

Profit for the year ended 31 December 2025 would increase/decrease by RMB42,146,000 (2024: RMB42,031,000) as a result of the changes in fair value of financial asset at FVTPL.

Credit risk and impairment assessment

The Group's credit risk is primarily attributable to its trade and bills receivables, finance lease receivables, loan receivables, other receivables and deposits, loans to an associate and a joint venture, amounts due from related parties, restricted bank deposits, time deposits and cash and cash equivalents. As at 31 December 2025, the Group's maximum exposure to credit risk which will cause a financial loss to the Group due to failure to discharge an obligation by the counterparties is arising from the carrying amount of the respective recognised financial assets as stated in the consolidated statement of financial position.

Credit risk and impairment assessment (continued)

The tables below detail the credit risk exposures of the Group's financial assets, which are subject to ECL assessment:

Other item			
Finance lease receivables (Note (ii))	12m ECL	1,422,192	1,406,976

Notes:

- (i) For the amounts due from an associate and a joint venture, financial positions of the associate and joint venture are regularly monitored in order to minimize the credit risk associated with receivables due from the associate and joint venture.

Restricted bank deposits, and cash and cash equivalents balances are placed with reputable financial institutions and BEH Finance.

- (ii) For other receivables and deposits, bills receivable and finance lease receivables, the Group uses the 12m ECL to measure the loss allowance, unless when there has been a significant increase in credit risk since initial recognition, the Group recognises lifetime ECL. For trade receivables, the Group has applied the simplified approach in IFRS 9 to measure the loss allowance at lifetime ECL.

(b) Financial risk management objectives and policies (continued)

Credit risk and impairment assessment (continued)

Trade and bills receivables arising from contracts with customers

The Group is exposed to significant concentration of credit risk in terms of electricity sales as majority of the Group's sales of electricity were made to regional and provincial power grid companies. The Group normally grants credit terms of 60 days to these power grid companies except for clean energy power price premium. The collection of such clean energy power price premium is subject to the allocation of funds by relevant government authorities to local grid companies, which therefore takes a relatively longer time for settlement, and the directors are of the opinion that the tariff premium receivables are fully recoverable considering that there are no bad debt experiences with the power grid companies in the past and the tariff premium is funded by the PRC government. The Group normally does not require collaterals from trade debtors. Aging analysis of the Group's trade receivables is disclosed in Note 26 and monitoring procedures are in place to ensure that follow-up action is taken to recover overdue debts. The amounts presented in the consolidated statement of financial position are net of allowances for credit losses, estimated by the Group's management based on historical settlement records.

The following tables show reconciliation of loss allowances that has been recognised for trade receivables.

Credit risk and impairment assessment (continued)

Other receivables and deposits

The counterparties of the Group's other receivables and deposits are mainly large state-owned enterprises with good credit and government agencies. Under ECL model, management makes periodic collective assessment as well as individual assessment on the recoverability of all the receivables, based on historical payment records, the length of the overdue period, the financial strength of the debtors and whether there are any disputes with the relevant debtors.

Restricted bank deposits and cash and cash equivalents

Substantially all of the Group's cash and deposits are held in major financial institutions and BEH Finance, which management believes are of high credit quality. To manage this risk, restricted bank deposits, and cash and cash equivalents are mainly placed with state-owned financial institutions and reputable banks. The Group has policies to control the size of the deposits to be placed with various reputable financial institutions according to their market reputation, operating scale and financial background with a view to limiting the amount of credit exposure to any single financial institution.

Finance lease receivables

The management are of the opinion that the finance lease receivables are fully recoverable taking into account the credit ratings of the counterparties and secured assets under the lease arrangements. Based on assessment by the management, the management considers the ECL for finance lease receivables is insignificant and therefore no loss allowance was recognised.

Liquidity risk management

In the management of the liquidity risk, the Group monitors and maintains a level of cash and cash equivalents deemed adequate by the management to finance the Group's operations and mitigate the effects of fluctuations in cash flows. The management monitors the utilisation of bank borrowings and ensures compliance with loan covenants.

The Group has net current liabilities as at 31 December 2025, which exposed the Group to liquidity risk. In order to mitigate the liquidity risk, the management regularly monitors the operational cash flow of the Group as well as the unutilised bank facilities to meet its liquidity requirements in the short and long term.

The Group relies on bank borrowings and perpetual notes as a significant source of liquidity. As at 31 December 2025, the Group has available unutilised banking and other borrowing facilities of RMB48,061,260,000 (2024: RMB32,463,400,000).

The following table details the Group's remaining contractual maturity for its financial liabilities and derivative instruments. The table has been drawn up based on the undiscounted cash flows of financial liabilities based on the earliest date on which the Group can be required to pay.

The table includes both interest and principal cash flows. To the extent that interest flows are floating rate, the undiscounted amount is derived from interest rate at the end of the reporting period.

(c) Fair value

Some of the Group's financial assets and financial liabilities are measured at fair value at the end of each reporting period. The following table gives information about how the fair values of these financial assets and financial liabilities are determined.

Financial assets/ financial liabilities	Fair value as at 31 December		Fair value hierarchy	Valuation technique and key input
	2025	2024		
1) Listed held for trading shares (Note 30)	Listed equity securities in Hong Kong: Electric power industry - RMB336,492,000	Listed equity securities in Hong Kong: Electric power industry -RMB335,573,000	Level 1	Quoted bid price in an active market.
2) Private equity investment at FVTOCI (Note 24)	Private equity investments in the PRC: Electric power industry - RMB120,800,000	Private equity investments in the PRC: Electric power industry - RMB106,000,000	Level 3	Market approach. Fair value are derived from price multiples of similar assets that have been traded in the market, and estimated based on the P/B ratio of comparable listed companies and a liquidity discount rate.
3) Fixed forward commodity contract classified as a derivative on the consolidated statement of financial position (Note 37)	Liability - RMB5,383,000	-	Level 3	Discounted cash flow. Future cash flows are estimated based on spot electricity price, contract forward price and generators' utilization hours, discounted at a rate that reflects the credit risk of the subsidiaries to the contracts.
4) Interest rate swaps classified as derivatives on the consolidated statement of financial position (Note 37)	-	Assets - RMB5,517,000	Level 2	Discounted cash flow. Future cash flows are estimated based on forward interest rates (from observable yield curves at the end of the reporting period) and contract interest rates, discounted at a rate that reflects the credit risk of the counterparty.

In estimating the fair value of an asset where Level 1 inputs are not available, the management of the Group works closely with external valuers to establish the appropriate valuation techniques and inputs to the model.

There were no transfers among different levels during both years.

Some of the Group's financial assets and financial liabilities are measured at amortised cost at the end of the reporting period. Their fair values are determined in accordance with generally accepted pricing models based on discounted cash flow analysis.

Except for the fixed rate bank and other borrowings (Note 34) and medium-term notes (Note 36), the directors consider that the carrying amounts of financial assets and financial liabilities recorded at amortised cost in the consolidated statement of financial position approximate

52. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2025

Up to the date of issue of these financial statements, the IASB has issued a number of new or amended standards, which are not yet effective for the year ended 31 December 2025 and which have not been adopted in these financial statements. These developments include the following which may be relevant to the Group.

	Effective for accounting periods beginning on or after
Amendments to IFRS 9, Financial instruments and IFRS 7, <i>Financial instruments: disclosures - Contracts referencing nature-dependent electricity</i>	1 January 2026
Amendments to IFRS 9, Financial instruments and IFRS 7, <i>Financial instruments: disclosures - Amendments to the classification and measurement of financial instruments</i>	1 January 2026
Annual improvements to IFRS Accounting Standards - Volume 11	1 January 2026
IFRS 18, <i>Presentation and disclosure in financial statements</i>	1 January 2027
IFRS 19, <i>Subsidiaries without public accountability: disclosures</i>	1 January 2027
Amendments to IFRS 10, <i>Consolidated financial statements and IAS 28, Investments in associates and joint ventures, "Sale or contribution of assets between an investor and its associate or joint venture"</i>	To be determined

Notes to the Consolidated Financial Statements

FOR THE YEAR ENDED 31 DECEMBER 2025

52. POSSIBLE IMPACT OF AMENDMENTS, NEW STANDARDS AND INTERPRETATIONS ISSUED BUT NOT YET EFFECTIVE FOR THE YEAR ENDED 31 DECEMBER 2025 *(continued)*

The Group is in the process of making an assessment of what the impact of these developments is expected to be in the period of initial application. So far it has concluded that the adoption of them is unlikely to have a significant impact on the consolidated financial statements except for the following:

IFRS 18, Presentation and disclosure in financial statements

IFRS 18 will replace IAS 1 Presentation of financial statements and aims to improve the transparency and comparability of information about an entity's financial statements. IFRS 18 is effective for annual reporting periods beginning on or after 1 January 2027 and is to be applied retrospectively.

Among other changes, under IFRS 18, entities are required to classify all income and expenses into five categories in the statement of profit or loss, namely the operating, investing, financing, discontinued operations and income tax categories. Entities are also required to provide specific disclosures about management-defined performance measures in a single note in the financial statements.

The Group does not plan to early adopt IFRS 18 and is still in the process of assessing the impact of the adoption.
